MANAGEMENT DISCUSSION AND ANALYSIS REPORT**Industry Structure and Developments**

Government of India has implemented the Goods and Services Tax Act, 2017 w.e.f. 01.07.2017 unifying all indirect taxes i.e. Sales Tax, Excise Duty and Service Tax and other local taxes into one tax facilitating relieve of business activities from complicated tax issues. Demonetization and GST implementation during the year has affected the business activities in short term but shall be beneficial in the long run.

India's financial service sector has grown from strength to strength over the years, built on prudential lending practices, robust regulatory environment and sound technology base and enabled growth of economic activities. While commercial banking stays at the forefront of the financial system, the growing pie of NBFCs has significantly contributed to industrial growth. The competitive landscape of financial services sector has witnessed

rapid growth in the last couple of decades. This movement is taking place on the back of market forces enabling inclusive growth, meeting sectorial thrust, leveraging policy initiatives and the ability to attract cost effective financial resources.

Non-Banking Finance Companies (NBFCs) and Housing Finance Companies (HFCs) continue to make a major impact on the lending side both in consumer/retail lending and commercial/business lending. During the year Capital Market has also witnessed growth. FII's are showing interest in matured Indian Capital Market and manufacturing sector.

Opportunities

Easy availability of finance, less legal requirements, less time consumption, Industries feel easy to approach NBFC for finance.

Threats

Stock market is very uncertain and chances of loss are there. Non-banking financial companies (NBFCs) have faced numerous challenges over the past few years. Growth in assets under management (AUM) has been slowing down across segments and NBFCs have lost market share to banks in some asset classes. Stressed asset quality has weighed down return on assets. Asset quality in segments such as infrastructure finance, loan against property, auto finance, construction equipment finance, and gold loan has deteriorated.

Outlook

NBFCs form an integral part of the Indian Financial System. They have been providing credit to retail customers in the under served and unbanked areas. Their ability to innovate products in consonance to the needs of their clients is well established. They have played a key role in the development of important sectors like Road Transport and Infrastructure which are the life lines of our economy. This role has been well recognized and strongly advocated for, by all the Expert Committees and Taskforces setup till date, by Govt. of India & RBI. It is an established fact that many unbanked borrowers avail credit from NBFCs and over the years use their track record with NBFCs and mature to become bankable borrowers. Thus, NBFCs act as conduits and have furthered the Government's agenda on Financial Inclusion

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2017, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1 BASIS OF PREPARATION OF FINANCIAL STATEMENTS

(a) Basis of Accounting:

The financial statements have been prepared in accordance with Generally Accepted Accounting Principles (GAAP) in India and presented under the historical cost convention on accrual basis of accounting to comply with the Accounting Standards and with the relevant provisions of the Companies Act, 2013.

(b) Use of Estimates:

The preparation of financial statements in conformity with Generally Accepted Accounting Principles (GAAP) in India requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosures of contingent liabilities on the date of financial statements and reported amounts of income and expenses during the period. Difference between the actual result and estimates are recognised in the period in which the results are known/ materialized.

2 FIXED ASSETS

Fixed assets are stated at cost, less accumulated depreciation. Cost includes expenses incidental to bringing the assets to its working condition for the intended use.

3 DEPRECIATION

Depreciation on fixed assets is provided on straight line method on the basis of the useful life prescribed in Schedule-II of Companies Act, 2013.

4 IMPAIRMENT OF ASSETS

Carrying amount of cash generating units / assets is reviewed for impairment. Impairment, if any, is recognised where the carrying amount exceeds the recoverable amount being the higher of realizable price and value in use.

5 INVESTMENTS

Long term investments are stated at cost less any provision for other than temporary diminution in value.

6 CASH AND CASH EQUIVALENTS (FOR PURPOSE OF CASH FLOW STATEMENT)

Cash comprises cash on hand and demand deposits with banks. Cash equivalents are short term balances (with an original maturity of three months or less from the date of acquisition), highly liquid investments that are readily convertible into known amounts of cash and which are subject to insignificant risk of changes in value.

7 CASH FLOW STATEMENT

Cash flows are reported using the indirect method, whereby profit/ (loss) before extraordinary items and tax is adjusted for the effects of transactions of non-cash nature and any deferrals or accruals of past or future cash receipts or payments. The cash flows from operating, investing and financing activities of the company are segregated based on the available information.

8 REVENUE/EXPENDITURE RECOGNITION

Revenue is recognized when it can be reliably measured and when all significant risks and rewards/ownership are transferred to the customer.

Dividend income is recognized in Statement of Profit and Loss when a right to receive payment is established. Interest income is recognized on accrual basis in the income statement.

Expenditure is accounted for on accrual basis and provision is made for all known losses and liabilities.

9 RETIREMENT BENEFITS

Provision of retirement benefits including gratuity is made as and when the employee become entitled to such benefits. Provision for leave encashment is not required to be made as the company does not have any leave encashment policy.

10 INCOME TAX

Provision for current income tax is made after taking credit for allowances and exemptions. In case of matters under appeal, due to disallowance or otherwise, provision is made when the said liabilities are accepted by the Company.

Minimum Alternate Tax (MAT) paid in a year is charged to Statement of Profit and Loss as current tax. The company recognizes MAT credit available as an asset only to the extent that there is convincing evidence that the company will pay normal income tax during the specified period, i.e. the period for which MAT credit is allowed to be carried forward.

In accordance with the Accounting Standard 22-Accounting for Taxes on income, the deferred tax for timing differences between the book & tax profit for the period is accounted for using the tax rates and the tax laws that have been enacted or substantively enacted as of the balance sheet date.

Deferred tax assets arising from temporary timing difference are recognized to the extent there is virtual certainty that the asset will be realized in future.

11 FOREIGN CURRENCY TRANSACTIONS

Transactions denominated in foreign currencies are normally recorded at the exchange rate prevailing at the date of the transaction. Monetary items denominated in foreign currencies outstanding at the year-end are translated at exchange rate applicable as of that date. Any income or expense on account of exchange difference either on settlement or on translation is recognized in the statement of Profit and Loss.

13 CONTINGENT LIABILITY & COMMITMENTS

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non occurrence of one or more uncertain future events beyond the control of the company. Where the potential liabilities have a low probability of crystallizing or are very difficult to quantify reliably, these are treated as contingent liabilities. Such liabilities are disclosed in the notes but are not provided for in the financial statements, although there can be no assurance regarding the final outcome of the legal proceedings, the company does not expect them to have a materially adverse impact on the financial position or profitability.
