Additional information, pursuant to Regulation 36 of the Listing Regulations, in respect of the director seeking appointment/ reappointment at the AGM, has been provided in the Corporate Governance section of the Annual Report.
- 19. Any person holding shares in physical form and non-individual shareholders, who acquires shares of the Company and becomes a Member of the Company after sending of the Notice and holding shares as of the cut-off date, may obtain the login ID and password by sending a request at https://ivote.bigshareonline.com/. However, if he / she is already registered with Bigshare Services Private Limited for remote e-Voting then he /she can use his / her existing User ID and password for casting the vote.
- 20. In case of Individual Shareholders holding securities in demat mode and who acquires shares of the Company and becomes a Member of the Company after sending of the Notice and holding shares as of the cut-off date may follow steps mentioned below under "Login method for remote e-Voting and joining virtual meeting for Individual shareholders holding securities in demat mode."
- 21. In case of any queries, you may refer the Frequently Asked Questions (FAQs) for Shareholders and evoting user manual for Shareholders available at the download section of <a href="www.evoting.nsdl.com">www.evoting.nsdl.com</a> or call on toll free no.: 1800 1020 990 and 1800 22 44 30.
- 22. The details of the process and manner for remote e-Voting and e-AGM are explained herein below:
  - Step 1: Access to Depositories e-Voting system in case of individual shareholders holding shares in demat mode.
  - Step 2: Access to Bigshare Services Private Limited e-Voting system in case of shareholders holding shares in physical and non-individual shareholders in demat mode.
  - Step 3: Access to join virtual meetings (e-AGM) of the Company on Bigshare Services Private Limited system to participate e-AGM and vote at the AGM.
- 23. Instructions for e-voting and AGM are as follows:

#### THE INSTRUCTIONS FOR E-VOTING AND JOINING THE AGM ARE AS FOLLOWS:

#### a. VOTING THROUGH ELECTRONIC MEANS

- i. The voting period begins 09:00 A.M. on Saturday, 23<sup>rd</sup> August, 2025 and will end at 5:00 P.M. on Monday, 25<sup>th</sup> August, 2025. During this period shareholders' of the Company, holding shares either in physical form or in dematerialized form, as on the cut-off date (record date) of Tuesday, 19<sup>th</sup> August, 2025 may cast their vote electronically. The e-voting module shall be disabled by Bigshare for voting thereafter.
- ii. Shareholders who have already voted prior to the meeting date would not be entitled to vote at the meeting venue.
- iii. Pursuant to SEBI Circular No. **SEBI/HO/CFD/CMD/CIR/P/2020/242 dated 09.12.2020**, under Regulation 44 of Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015, listed entities are required to provide remote evoting facility to its shareholders, in respect of all shareholders' resolutions. However, it has been observed that the participation by the public non-institutional shareholders/retail shareholders is at a negligible level.

Currently, there are multiple e-voting service providers (ESPs) providing e-voting facility to listed entities in India. This necessitates registration on various ESPs and maintenance of multiple user IDs and passwords by the shareholders.

In order to increase the efficiency of the voting process, pursuant to a public consultation, it has been decided to enable e-voting to all the demat account holders, by way of a single login credential, through their demat accounts/ websites of Depositories/ Depository Participants. Demat account holders would be able to cast their vote without having to register again with the ESPs, thereby, not only facilitating seamless authentication but also enhancing ease and convenience of participating in e-voting process.

- iv. In terms of **SEBI circular no. SEBI/HO/CFD/CMD/CIR/P/2020/242 dated December 9, 2020** on e-Voting facility provided by Listed Companies, Individual shareholders holding securities in demat mode are allowed to vote through their demat account maintained with Depositories and Depository Participants. Shareholders are advised to update their mobile number and email Id in their demat accounts in order to access e-Voting facility.

# MANAGEMENT DISCUSSION AND ANALYSIS REPORT

We have prepared a comprehensive overview of the industrial space sequenced as macroeconomic view, industrial and exports revival in India, rising middle class, digital leap fogging and financing demand.

#### A. ECONOMIC OUTLOOK

#### FY 24-25 Macroeconomic Overview

#### Economy Back to Growth, Business as Usual

India's real GDP growth for FY 2024-25 is projected at 6.4 percent, aligning with its decadal average. The real gross value added (GVA) is also expected to grow at the same rate. While the global economy grew by 3.3 percent in 2023, the IMF projects a 3.2 percent growth rate over the next 5 years. For FY 2025-26, India's GDP growth is forecasted to range between 6.3 percent and 6.8 percent, depending on external factors. The survey underlines India's commitment to structural reforms and deregulation to strengthen its medium-term growth potential

However, geopolitical tensions, global trade risks, and ongoing conflicts remain significant concerns. Inflationary trends indicate a decline, with retail headline inflation reducing from 5.4 percent in FY24 to 4.9 percent in April–December 2024. Capital expenditure has consistently improved, with an 8.2 percent year-on-year increase post-general elections (July–November 2024). India also maintains its position as the seventh-largest global exporter of services, reflecting its strong competitiveness in the sector.

Private consumption and investment remain crucial drivers of economic growth. Rural demand is showing signs of recovery, supported by higher agricultural output and government welfare measures. Urban consumption continues to be robust, driven by increased disposable incomes, a thriving services sector, and improved employment prospects. Meanwhile, government spending on social infrastructure, including healthcare and education, remains a priority to ensure inclusive growth.

#### Global Economic Overview:

Global growth is expected to hold steady at 2.7 percent in 2025-26. However, the global economy appears to be settling at a low growth rate that will be insufficient to foster sustained economic development. Emerging market and developing economies are set to enter the second quarter of the 21<sup>st</sup> century with per capita incomes on a trajectory that implies feeble catch-up toward those of advanced economies. Most low-income countries are not on course to graduate to middle-income status by 2050. Policy action at the global and national levels is needed to foster a more favorable external environment, enhance macroeconomic stability, reduce structural constraints, address the effects of climate change, and thus accelerate long-term growth and development.

Although GDP in the emerging economies has been somewhat higher than in the developed economies, China has been looking to reinvigorate its economy with a series of stimulus measures over recent months. At its Central Economic Work Conference held in mid-December, the government

identified insufficient domestic demand as the primary challenge and outlined its economic priorities for 2025. These include boosting domestic demand, stabilizing the real estate sector, and advancing innovation to drive sustainable growth. Analysts want to see what solutions emerge next year. Meanwhile, India's economy continues to exhibit resilience and growth, with robust performance in key sectors despite global economic headwinds. A GDP growth rate for fiscal year 2024–25 is projected at 6.5%, supported by strong domestic consumption and rising private investments.

# INTERNAL AUDITOR REPORT FOR THE FINANCIAL YEAR 2024-2025 TIAAN CONSUMER LIMITED

To
The board of directors,
INDIA SOLOMON HOLDINGS LIMITED
ROOM NO.401, 3198/15,SANGTARASHAN
PAHARGANJ, Central Delhi, NEW DELHI, Delhi, India, 110055

### **Opinion**

Pursuant to the provisions of Section 138 of the Companies Act, 2013 and the rules made thereunder, we have conducted the Internal Audit of the business operations and internal control systems of Tiaan Consumer Limited for the financial year ended 31st March 2025. The audit was conducted in accordance with the accepted internal auditing standards and practices.

# 1. Objective

The primary objective of the internal audit was to evaluate the adequacy, effectiveness, and efficiency of the internal control systems and procedures to ensure compliance with applicable laws, policies, and procedures.

### 2. Scope of Audit

The audit covered the following key areas:

Purchase and procurement process, Sales and revenue cycle, Inventory management, Production records and wastage control, Statutory compliance (GST, TDS, PF, ESI, etc.), Financial reporting and accounting controls, Fixed assets management, Debtors and creditors management, Cash and bank transactions, Human resources and payroll.

#### 3. Audit Observations & Findings

#### a. Procurement & Inventory:

Purchase procedures are generally in compliance with internal policy. However, instances of delays in recording inward stock were noted.

Recommendation: Strengthen timelines for inventory updates.

#### b. Sales & Revenue:

All sales are duly invoiced and accounted.

Credit control mechanisms are in place but need to be more robust to reduce receivables aging beyond 90 days.

#### c. Statutory Compliance:

Company is largely compliant with all major statutory requirements.

Minor delays in monthly TDS deposit were observed during the second quarter.

#### d. Fixed Assets:

Asset register is maintained properly.

Need to implement physical verification policy at least once a year.

# e. HR & Payroll:

Salary disbursements and PF/ESI deductions are proper. Documentation for new joinees needs improvement.

#### f. Cash & Bank:

No irregularities found. Monthly bank reconciliations are timely and accurately done.

#### 4. Internal Controls

The internal control systems in place are satisfactory and generally effective in mitigating key risks. However, certain areas require improvements to ensure continued compliance and operational efficiency.

#### **5. Recommendations**

Implementation of inventory management software for real-time updates. Strengthening follow-up on outstanding receivables. Regular training for accounts and compliance staff on statutory updates. Annual physical verification of fixed assets. Introducing standard operating procedures (SOPs) for onboarding and exit of employees.

#### 6. Conclusion

Based on our review, the internal control systems of Tiaan Consumer Limited. are found to be reasonably adequate and effective. Timely action on the above recommendations will further enhance the efficiency and compliance culture within the organization.

We thank the management and staff for their cooperation during the audit.

# **Corporate Governance Report**

Annexure-IV

As required under Regulation 27(2) of the SEBI ((Listing Obligations and Disclosures requirements) Regulations, 2015

#### **INTRODUCTION:**

Corporate governance is a term that refers broadly to the rules, processes, or laws by which businesses are operated, regulated, and controlled. The term can refer to internal factors defined by the officers, stockholders or constitution of a corporation, as well as to external forces such as consumer groups, clients, and government regulations. The Corporate Governance is a key element in enhancing investor confidence, promoting competitiveness and ultimately improving economic growth.

The objective of Corporate Governance is "Enhancement of long term shareholders value and ensuring the protection of rights of the shareholders" and your company reiterates its commitment to good Corporate Governance.

#### COMPANY'S PHILOSOPHY ON CORPORATE GOVERNANCE:

The Company policy on Corporate Governance rests on the pillars of transparency, accountability, integrity, equity and environment responsibility in all facts of its operations. Good Corporate Governance therefore, embodies both enterprise (performance) and accountability (conformance).

Independent directors are appointed not merely to fulfill the listing requirement but for their diverse skills, experience and external objectivity that they bring to effectively perform their role to provide strategic direction and guidance and provide constructive support to management by asking the right questions and generating quality debates and discussions on major decisions.

# Corporate social responsibility policy

Corporate Social Responsibility Policy, prepared by the Corporate Social Responsibility Committee of the Company, constituted under Section 135(1) of the Companies Act, 2013 and Companies (Corporate Social Responsibility Policy) Rules, 2014:

#### What Comprises of the CSR Committee:

Section 135 of the Companies Act, 2013 ("Act") provides that a company having net worth of rupees five hundred crore of more or turnover of rupees one thousand crore or more or a net profit of rupees five crore or more must constitute a corporate social responsibility committee ("CSR Committee") consisting of three or more directors, one out of whom must be an independent director. The CSR Rules have been notified on 27 February 2014 and will come into force on 1st April, 2014.

The CSR Rules have clarified that the companies that that are covered under Section 135 of the Act and are not required to have an independent director on its board of directors (Section 149 of the Act) may constitute a CSR Committee without the inclusion of an independent director thereto. Hence, for an unlisted public company or private company, there is no requirement to have an independent director. Also, a private company having only two directors can form a CSR Committee constituting of two directors only. For foreign companies, the CSR Rules have clarified that of the two directors on the CSR Committee, one must be a resident of India who has been authorized to accept on behalf of the company any notices or other documents required to be served on the company.

#### What Comprises of the CSR Policy?:

The CSR Committee is required to formulate a corporate social responsibility policy ("CSR Policy"), while bringing clarity on the definition of a CSR Policy (recommended by the CSR Committee and approved by the board of directors), the final CSR Rules provide a broad framework for the CSR Policy, allowing each company to be as elaborate/ specific on each of the following domains:

- 2. List of corporate social responsibility ("CSR") projects/programmes relating to activities specified in Schedule VII of the Act ("CSR Activities")
- 3. Modalities of execution
- 4. Transparent monitoring mechanism
- 5. Expenditure/budget for the CSR Activities

Additionally, it is required that the CSR Policy adopted by the company must specify that, any surplus arising out of CSR Activities will be re-directed towards CSR Activities and not the business of the company. Further, the boards of directors are required to submit a report under Section 134 (3) of the Act, and the relevant portions of the CSR Policy must be disclosed in the said report, also, the relevant portions of the CSR Policy adopted by the Company must be disclosed on the company's website.

# INDEPENDENT AUDITORS' REPORT

#### **INDEPENDENT AUDITORS' REPORT**

Tο

The Members of INDIA SOLOMON HOLDINGS LIMITED

Report on the audit of the standalone financial statements

#### **Opinion**

We have audited the accompanying standalone financial statements of **INDIA SOLOMON HOLDINGS LIMITED**("the Company"), which comprise the balance sheet as at **March 31**, **2025**, and the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Accounting Standards prescribed under Section 133 of the Act and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2025, and its **Profit** and total comprehensive income, changes in equity and its cash flows for the year ended on that date. The company should have prepared a financial statements in compliance with IND AS as prescribed, which may significantly affects the financial statements of the company.

### **Basis for opinion**

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("the ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

# **Key Audit Matters**

#### Loan advanced

The company is mainly a CIC company and had advanced Inter-corporate deposits.

For the year ended **March 31, 2025** the Company had balance of loans and advances to the tune of **Rs. 44.50 lacs**.

The variety of terms that define contract of loan where terms of loans, such as of schedule. Rate Interest. repayment securities associated, overdues if any etc. This area was of most significance in our audit due to the magnitude of amount involved. Accordingly, due to the significant risk associated in accordance with terms of applicable AS, it was determined to be a key audit matter in our audit of the standalone financial statements.

### **Auditor's Response**

# Our audit procedures included the following:

- Considered Company's loan policy and its compliance.
- Assessed the design and tested the operating effectiveness of internal controls related to loans.
- Performed sample tests of individual transaction and other related documents. Further, in respect of the samples tested we checked that the loans has been advanced as per the policy.
- Selected sample of loans extended and checked the documents.
- Obtained few balance confirmations as at the year end to evaluate loans.

# Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's board of directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility and Sustainability Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report on in this regard.

# Responsibilities of Management and Those Charged with Governance for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

### Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We have also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that material uncertainty exists, we are required to draw attention in our Auditor's Report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The previously issued standalone financial statements were audited by the predecessor auditor whose report for the year ended 31 March 2024 issued on 01/05/2024 expressed an unmodified opinion on those standalone financial statements were also prepared without complying to companies accounting standard rules 2021 to comply with Ind As.

### Report on other legal and regulatory requirements

As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in Annexure "A" a statement on the matters specified in paragraphs 3 and 4 of the Order.

# Annexure "B" to the Independent Auditor's Report

(Referred to in paragraph 2 (f) under 'Report on other legal and regulatory requirements' section of our report to the Members of INDIA SOLOMON HOLDINGS LIMITED of even date:

# Report on the internal financial controls over financial reporting under clause (i) of sub – section 3 of section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of INDIA SOLOMON HOLDINGS LIMITED. ("the Company") as at March 31, 2025, in conjunction with our audit of the financial statements of the Company for the year ended on that date.

# Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

# Auditors' responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

# Meaning of internal financial controls over financial reporting

A Company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

# Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

# **Opinion**

In our opinion and to the best of our information and according to the explanations given to us, the Company has, in all material respects, does not adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31 March 2025, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of such internal controls stated in the Guidance Note.

#### INDEPENDENT AUDITORS' REPORT

To

The Members of INDIA SOLOMON HOLDINGS LIMITED

Report on the audit of the consolidated financial statements

#### **Opinion**

We have audited the accompanying consolidated financial statements of **INDIA SOLOMON HOLDINGS LIMITED**("the Company"), which comprise the balance sheet as at **March 31**, **2025**, and the statement of profit and loss (including other comprehensive income), the statement of changes in equity and the statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Accounting Standards prescribed under Section 133 of the Act and other accounting principles generally accepted in India, of the state of affairs of the Company as at 31 March 2025, and its **Profit** and total comprehensive income, changes in equity and its cash flows for the year ended on that date. The company should have prepared a financial statements in compliance with IND AS as prescribed, which may significantly affects the financial statements of the company.

# **Basis for opinion**

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("the ICAI") together with the ethical requirements that are relevant to our audit of the consolidated financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the consolidated financial statements.

# **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

### **Key Audit Matters**

#### Loan advanced

The company is mainly a CIC company and had advanced Inter-corporate deposits.

For the year ended **March 31, 2025** the Company had balance of loans and advances to the tune of **Rs. 44.50 lacs**.

The variety of terms that define contract of loan where terms of loans, such as repayment schedule, Rate of Interest, securities associated, overdues if any etc. This area was of most significance in our audit due to the magnitude of amount involved. Accordingly, due to the significant risk associated in accordance with terms of applicable AS, it was determined to be a key audit matter in our audit of the consolidated financial statements.

#### **Auditor's Response**

# Our audit procedures included the following:

- Considered Company's loan policy and its compliance.
- Assessed the design and tested the operating effectiveness of internal controls related to loans.
- Performed sample tests of individual transaction and other related documents. Further, in respect of the samples tested we checked that the loans has been advanced as per the policy.
- Selected sample of loans extended and checked the documents.
- Obtained few balance confirmations as at the year end to evaluate loans.
- The figures for consolidation for the company have been taken from the financial statements for the Financial year 2023-24 as the figures for the financial year 2024-25 were not available.

# Information Other than the Consolidated Financial Statements and Auditor's Report Thereon

The Company's board of directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility and Sustainability Report, Corporate Governance and Shareholder's Information, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report on in this regard.

# Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the financial position, financial performance, total comprehensive income, changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards specified under Section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

# Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We have also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management.
- Conclude on the appropriateness of the Management and Board of Directors use of the going concern basis of accounting and, based on the audit evidence obtained,

whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that material uncertainty exists, we are required to draw attention in our Auditor's Report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

 Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards. From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The previously issued consolidated financial statements were audited by the predecessor auditor whose report for the year ended 31 March 2024 issued on 01/05/2024 expressed an unmodified opinion on those consolidated financial statements were also prepared without complying to companies accounting standard rules 2021 to comply with Ind As.

# Report on other legal and regulatory requirements

As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in Annexure "A" a statement on the matters specified in paragraphs 3 and 4 of the Order.

# Annexure "A" to the Independent Auditor's Report

(Referred to in paragraph 2 (f) under 'Report on other legal and regulatory requirements' section of our report to the Members of INDIA SOLOMON HOLDINGS LIMITED of even date:

Report on the internal financial controls over financial reporting under clause (i) of sub – section 3 of section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of INDIA SOLOMON HOLDINGS LIMITED. ("the Company") as at March 31, 2025, in conjunction with our audit of the financial statements of the Company for the year ended on that date.

# Responsibilities of Management and Those Charged with Governance for Internal Financial Controls

The Company's Board of Directors is responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the 'Guidance Note') issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of the Company's business, including adherence to Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

# Auditors' responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to financial statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements were established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to financial statements.

# Meaning of internal financial controls over financial reporting

A Company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of Management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

# Inherent Limitations of Internal Financial Controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial controls with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### **Opinion**

In our opinion and to the best of our information and according to the explanations given to us, the Company has, in all material respects, does not adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at 31 March 2025, based on the internal financial controls with reference to financial statements criteria established by the Company considering the essential components of such internal controls stated in the Guidance Note.

#### Segment Reporting

Operating segments are defined as components of an enterprise for which discrete financial information is available that is evaluated regularly by the Chief Operating Decision Maker, in deciding how to allocate resources and assessing performance. Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. Based on the management approach as defined in Ind AS 108, the Chief Operating Decision Maker evaluates the Company's performance based on only one segment i.e. Trading of shares and Securities.

#### 33.2 Liquidity Risk

The Company determines its liquidity requirement in the short, medium and long term. This is done by drawing up cash forecast for short term and long term

The Company manage its liquidity risk in a manner so as to meet its normal financial obligations without any significant delay or stress. Such risk is managed through ensuring operational cash flow while at the same time maintaining adequate cash and cash equivalent position. The management has arranged for funding from banks and inter corporate and adopted a policy of managing assets with liquidity monitoring future cash flow and liquidity on a regular basis. Surplus funds not immediately required are invested in certain fixed deposits which provides flexibility to liquidate.

represents actual unamortised contractual cash outflows.

Note: The amounts are gross and undiscounted, and include contractual interest payments and exclude the impact of netting agreements (if any). The interest payments on variable interest rate loans in the tables above reflect market forward interest rates at the respective reporting dates and these amounts may change as market interest rates change. Except for these financial liabilities, it is not expected that cash flows included in the maturity analysis could occur significantly earlier, or at significantly different amounts. When the amount payable is not fixed, the amount disclosed has been determined with reference to conditions existing at the reporting date.

#### 33.3 Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises of Foreign Exchange Risk and Interest Rate Risk.

#### Foreign Exchange Risk

Foreign Exchange Risk is the exposure of the Company to the potential impact of the movement in foreign exchange rate. The Company does not have any material foreign currency exposure at the balance sheet date.

## Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market rates. The company's exposure to the risk of changes in market interest rate relates primarily to company's borrowing with floating interest rates. The Company do not have any significant interest rate risk on its current borrowing due to their short tenure.

The Company is also exposed to interest rate risk on surplus funds parked in loans. To manage such risks, such loans are granted for short durations with fixed interest rate in line with the expected business requirements for such funds.

# 34 Capital Management

The Company objective to manage its capital is to ensure continuity of business while at the same time provide reasonable returns to its various stakeholders but keep associated costs under control. In order to achieve this, requirement of capital is reviewed periodically with reference to operating and business plans that take into account capital expenditure and strategic investments. Sourcing of capital is done through judicious combination of equity/internal accruals and borrowings, both short term and long term. Net debt (total borrowings less cash and cash equivalents) to equity ratio is used to monitor capital.

#### 2. BASIS OF ACCOUNTING

# 2.1. Statement of Compliance

These financial statements have been prepared in accordance with the Accounting Standards as prescribed by Ministry of Corporate Affairs other relevant provisions of the Act and other accounting principles generally accepted in India including the guidelines issued by the Reserve Bank of India (RBI) as applicable to an Non – Banking Finance Company ('NBFC'). The figures have been reported on historical basis.

# 2.2. Basis of Measurement

The Company maintains accounts on accrual basis following the historical cost convention, except for followings:

- 2.2.1.All assets falling under Property Plant and Equipment (PPE) have been valued at Cost Less Depreciation.
- 2.2.2.Certain Financial Assets and Liabilities is measured at Fair value/ Amortized cost (refer accounting policy regarding financial instruments);
- 2.2.3.Defined Benefit Plans Plan assets measured at fair value wherever applicable

# 2.3. Functional and Presentation Currency

The Financial Statements are presented in Indian Rupee (₹), which is the functional currency of the Company and the currency of the primary economic environment in which the Company operates. All amounts disclosed in financial statements and notes have been rounded off to the nearest Lacs (with two places of decimal) as per the requirements of Schedule III, unless otherwise stated.

# 2.4. Use of Estimates and Judgements

The preparation of financial statements in conformity with Ind AS requires judgments, estimates and assumptions to be made that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known/materialized.

# 2.5. Presentation of Financial Statements

The Balance Sheet and the Statement of Profit and Loss are prepared and presented in the format prescribed in the Schedule III to the Companies Act, 2013 ("the Act"). The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash flows". The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of the financial statements along with the other notes required to be disclosed under the notified Indian Accounting Standards.

# 2.6. Operating Cycle for current and non-current classification

All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1. The Company has ascertained its operating cycle as twelve months for the purpose of current and non-current classification of assets and liabilities.

- 2.6.1. An asset is classified as current when it is:
  - 2.6.1.1. Expected to be realized or intended to sold or consumed in normal operating cycle;
  - 2.6.1.2. Held primarily for the purpose of trading;
  - 2.6.1.3. Expected to be realized within twelve months after the reporting period; or
  - 2.6.1.4. Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All the other assets are classified as non-current.

- 2.6.2. A liability is current when:
  - 2.6.2.1. It is expected to be settled in normal operating cycle;
  - 2.6.2.2. It is held primarily for the purpose of trading;
  - 2.6.2.3. It is due to be settled within twelve months after the reporting period; or
  - 2.6.2.4. There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All the other liabilities are classified as non-current.

- 2.6.3. Deferred Tax Assets and Liabilities are classified as non-current assets and liabilities respectively.
- 2.7. Measurement of Fair Values

A number of the Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

- 2.7.1. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:
  - 2.7.1.1. In the principal market for the asset or liability, or
  - 2.7.1.2. In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

- 2.7.2. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.
  - All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the input that is significant to the fair value measurement as a whole:
  - Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities
  - Level 2 Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable and
  - Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

# 3. ACCOUNTING POLICIES

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all the periods presented in the financial statements.

# 3.1. Property, Plant and Equipment

# 3.1.1. Recognition and Measurement:

Property (Land and Building), plant and equipment held for use in the production or/and supply of goods or services, or for administrative purposes is stated in the balance sheet at Fair Market Value less any accumulated depreciation and accumulated impairment losses (if any). Cost of an item of property, plant and equipment acquired comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting any trade discounts and rebates, any directly attributable costs of bringing the assets to its working condition and location for its intended use and present value of any estimated cost of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Profit or loss arising on the disposal of property, plant and equipment are recognized in the Statement of Profit and Loss.

# 3.1.2. Subsequent Measurement:

Subsequent costs are included in the asset's carrying amount, only when it is probable that future economic benefits associated with the cost incurred will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced.

Major Inspection/ Repairs/ Overhauling expenses are recognized in the carrying amount of the item of property, plant and equipment as a replacement if the recognition criteria are satisfied. Any Unamortized part of the previously recognized expenses of similar nature is derecognized.P

# 3.1.3. Depreciation and Amortization:

Depreciation on Property, Plant & Equipment is provided on Straight Line Method in terms of life span of assets prescribed in Schedule II of the Companies Act, 2013 or as reassessed by the Company based on the technical evaluation.

In case the cost of part of tangible asset is significant to the total cost of the assets and useful life of that part is different from the remaining useful life of the asset, depreciation has been provided on straight line method based on internal assessment and independent technical evaluation carried out by external valuers, which the management believes that the useful lives of the component best represent the period over which it expects to use those components.

Category	Useful life (Years)		
Non-Factory Building (RCC Frame Structure)	30/60		
Factory Building	30		
Plant and machinery			
Other than Continuous Process Plant	8/10/15/40		
Computer equipment	3/5		
Servers and networks	5		
Furniture and Fixtures	5/10		
Office equipment	5		
Vehicles, Motor cycles, scooters	8		
Others	8		

Depreciation on additions (disposals) during the year is provided on a pro-rata basis i.e., from (up to) the date on which asset is ready for use (disposed of).

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

# 3.1.4. Disposal of Assets

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between net disposal proceeds and the carrying amount of the asset and is recognized in the statement of profit and loss.

# 3.1.5. Capital Work in Progress

Capital work-in-progress is stated at cost which includes expenses incurred during construction period, interest on amount borrowed for acquisition of qualifying assets and ther expenses incurred in connection with project implementation in so far as such expenses relate to the period prior to the commencement of commercial production.

# 3.2. Leases

# 3.2.1. Determining whether an arrangement contains a lease

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right-of-use (ROU) for the asset or assets, even if that right is not explicitly specified in an arrangement.

Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosures of leases for both lessees and lessors. It introduced a single, on-balance sheet accounting model for lessees.

The Company is lessee mainly in Land & Building (Factory and Offices). It recognised all such arrangements as right-of-use (ROU) asset and lessee as liability. The ROU is considered when company has all the right to drive economic benefits from the use of underlying asset. The right-of-use (ROU) asset is measured by discounting future lease payments to net present value (NPV). All lease payments during reporting period are recognised either as operational lease or financial lease as per Ind AS 116. However low value leases and leases below 12 months are treated as operating lease only.

# 3.2.2. Company as lessor

# Finance Lease

Leases which effectively transfer to the lessee substantially all the risks and benefits incidental to ownership of the leased item are classified and accounted for as finance lease. Lease rental receipts are apportioned between the finance income and capital repayment based on the implicit rate of return. Contingent rents are recognized as revenue in the period in which they are earned.

# Operating Lease

Leases in which the Company does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease except where scheduled increase in rent compensates the Company with expected inflationary costs.

# 3.2.3. Company as lessee

Finance Lease

Finance Leases, which effectively transfer to the lessee substantially all the risks and benefits incidental to ownership of the leased item, are capitalized at the lower of the fair value and present value of the minimum lease payments at the inception of the lease term and disclosed as leased assets. Lease Payments under such leases are apportioned between the finance charges and reduction of the lease liability based on the implicit rate of return. Finance charges are charged directly to the statement of profit and loss. Lease management fees, legal charges and other initial direct costs are capitalized. If there is no reasonable certainty that the Company will obtain the ownership by the end of lease term, capitalized leased assets are depreciated over the shorter of the estimated useful life of the asset or the lease term.

# **Operating Lease**

Assets acquired on leases where a significant portion of risk and reward is retained by the lessor are classified as operating leases. Lease rental are charged to statement of profit and loss on a straight-line basis over the lease term, except where scheduled increase in rent compensates the Company with expected inflationary costs.

# 3.3. Inventories

Inventories are valued at the lower of cost and net realizable value (NRV). Cost is measured by including, unless specifically mentioned below, cost of purchase and other costs incurred in bringing the inventories to their present location and condition. NRV is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale. Cost is ascertained on weighted average basis for all inventories except for by products and scrap materials which are valued at net realizable value.

# 3.4. Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of change in value.

For the purpose of the statement of cash flows, cash and cash equivalents includes cash on hand, term deposits and other short-term highly liquid investments, net of bank overdrafts as they are considered an integral part of the Company's cash management. Bank overdrafts are shown within short-term borrowings in the balance sheet.

# 3.5. Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses etc. Current and deferred tax is recognized in the statement of profit & loss, except to the extent that it relates to items

recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

# 3.5.1. Current Tax: -

Current tax liabilities (or assets) for the current and prior periods are measured at the amount expected to be paid to (recovered from) the taxation authorities using the tax rates (and tax laws) that have been enacted or substantively enacted, at the end of the reporting period.

# 3.5.2. Minimum Alternate Tax (MAT) credit:-

MAT Credit is recognized as an asset only when and to the extent there is convincing evidence that the company will pay normal income tax during the specified period. In the year in which the Minimum Alternative tax (MAT) credit becomes eligible to be recognized as an asset in accordance with the recommendations contained in guidance note issued by the Institute of Chartered Accountants of India, the said asset is created by way of a credit to the Statement of profit and loss and shown as MAT Credit Entitlement. The Company reviews the same at each balance sheet date and writes down the carrying amount of MAT Credit Entitlement to the extent there is no longer convincing evidence to the effect that Company will pay normal Income Tax during the specified period.

#### 3.5.3. Deferred Tax: -

Deferred Tax assets and liabilities is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes (i.e., tax base). Deferred tax is also recognized for carry forward of unused tax losses and unused tax credits.

Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period. The Company reduces the carrying amount of a deferred tax asset to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or that entire deferred tax asset to be utilized. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profit will be available.

Deferred tax relating to items recognized outside the Statement of Profit and Loss is recognized either in other comprehensive income or in equity. Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

# 3.6. Revenue Recognition

Revenue is recognized based to the extent it is probable that the economic benefit will flow to the company and revenue can be reliably measured regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment, and excludes taxes & duties collected on behalf of the Government and is reduced for estimated customer returns, rebates and other similar allowances.

# 3.6.1. Sale of Products:

The Company recognizes revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Company and significant risk and reward incidental to sale of products is transferred to the buyer, usually on delivery of the goods. Accruals for sales return, chargeback and other allowances are provided at the point of sale based on the past experience.

# 3.6.2. Revenue from rendering of services:

Revenue from rendering of services is recognized on pro-rata basis over the period of contract and when the performance of agreed contractual task has been completed.

# 3.6.3. Other Income:

- 3.6.3.1. Interest Income: For all debt instruments measured either at amortized cost or at fair value through other comprehensive income (FVTOCI), interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset.
- 3.6.3.2. Other Income: Other items of income are accounted as and when the right to receive such income arises and it is probable that the economic benefits will flow to the company and the amount of income can be measured reliably.

# 3.7. Employee Benefits

## 3.7.1. Short Term Benefits

Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related services are provided. Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render the related service are recognized in respect of employees' services up to the end of the reporting period.

# 3.7.2. Other Long-Term Employee Benefits

The liabilities for earned/privilege leave that are not expected to be settled wholly within twelve months are measured as the present value of the expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the government securities (G-Sec) at the end of the reporting period that have terms approximating to the terms of related obligation. Remeasurement as the result of experience adjustment and changes in actuarial assumptions are recognized in statement of profit and loss.

# 3.7.3. Post-Employment Benefits

The Company operates the following post-employment schemes:

## 3.7.4. Defined Contribution Plan

Defined contribution plans such as Provident Fund, Employee State Insurance etc. are charged to the statement of profit and loss as and when incurred and paid to Authority.

# 3.7.5. Defined Benefit Plans

- 3.7.5.1. The liability or asset recognized in the Balance Sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods. The defined benefit obligation is calculated annually by Actuaries using the projected unit credit method.
- 3.7.5.2. The liability recognized for defined benefit plans is the present value of the defined benefit obligation at the reporting date less the fair value of plan assets, together with adjustments for unrecognized actuarial gains or losses and past service costs. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. The benefits are discounted using the government

- securities (G-Sec) at the end of the reporting period that have terms approximating to the terms of related obligation.
- 3.7.5.3. Remeasurement of the net defined benefit obligation, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling, are recognized in other comprehensive income. Remeasurement recognized in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to the statement of profit and loss.

## 3.8. Foreign Currency Transactions

- 3.8.1. Foreign currency (other than the functional currency) transactions are translated into the functional currency using the spot rates of exchanges at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rate of exchanges at the reporting date.
- 3.8.2. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities are generally recognized in profit or loss in the year in which they arise except for exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those qualifying assets. When they are regarded as an adjustment to interest costs on those foreign currency borrowings, the balance is presented in the Statement of Profit and Loss within finance costs.

## 3.9. Borrowing Costs

- 3.9.1. Borrowing Costs consists of interest and other costs that an entity incurs in connection with the borrowings of funds. Borrowing costs also includes foreign exchange difference to the extent regarded as an adjustment to the borrowing costs.
- 3.9.2. Borrowing costs directly attributable to the acquisition or construction of a qualifying asset are capitalized as a part of the cost of that asset that necessarily takes a substantial period of time to complete and prepare the asset for its intended use or sale.
- 3.9.3. Transaction costs in respect of long-term borrowing are amortized over the tenure of respective loans using Effective Interest Rate (EIR) method. All other borrowing costs are recognized in the statement of profit and loss in the period in which they are incurred.

## 3.10. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

#### 3.11. Financial Assets

- 3.11.1. Recognition and Initial Measurement:
  - 3.11.1.1. All financial assets are initially recognized when the company becomes a party to the contractual provisions of the instruments. A financial asset is initially measured at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.
- 3.11.2. Classification and Subsequent Measurement: For purposes of subsequent measurement, financial assets are classified in four categories:
  - 1. Measured at Amortized Cost;
  - 2. Measured at Fair Value through Other Comprehensive Income (FVTOCI);
  - 3. Measured at Fair Value through Profit or Loss (FVTPL); and
  - 4. Equity Instruments designated at Fair Value through Other Comprehensive Income (FVTOCI).

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Company changes its business model for managing financial assets.

- 3.12. Measured at Amortized Cost: A debt instrument is measured at the amortized cost if both the following conditions are met:
  - 1. The asset is held within a business model whose objective is achieved by both collecting contractual cash flows; and
  - 2. The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the statement of profit or loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade receivables, cash and bank balances, loans and other financial assets of the company.

3.13. Measured at FVTOCI: A debt instrument is measured at the FVTOCI if both the following

conditions are met:

- 3.13.1. The objective of the business model is achieved by both collecting contractual cash flows and selling the financial assets; and
- 3.13.2. The asset's contractual cash flows represent SPPI.
- 3.14. Debt instruments meeting these criteria are measured initially at fair value plus transaction costs. They are subsequently measured at fair value with any gains or losses arising on remeasurement recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains or losses. Interest calculated using the effective interest method is recognized in the statement of profit and loss in investment income.
- 3.15. Measured at FVTPL: FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as FVTPL. In addition, the company may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss. Equity instruments which are, held for trading are classified as at FVTPL.
- 3.16. Equity Instruments designated at FVTOCI: For equity instruments, which has not been classified as FVTPL as above, the company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable. In case the company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment.

#### 3.17. Derecognition:

The Company derecognizes a financial asset on trade date only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

#### 3.18. Impairment of Financial Assets:

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS - 109 requires expected credit losses to be measured through a loss allowance. The company recognizes impairment loss for trade receivables that do not constitute a financing transaction using expected credit loss model, which involves use of a provision matrix constructed on the basis of historical credit loss experience. For all other financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount

equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

#### 3.19. Financial Liabilities

## 3.19.1. Recognition and Initial Measurement:

Financial liabilities are classified, at initial recognition, as at fair value through profit or loss, loans and borrowings, payables or as derivatives, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

## 3.19.2. Subsequent Measurement:

Financial liabilities are measured subsequently at amortized cost or FVTPL. A financial liability is classified as FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in

profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest rate method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on de-recognition is also recognized in profit or loss.

#### 3.19.3. Financial Guarantee Contracts:

Financial guarantee contracts issued by the company are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirement of Ind AS 109 and the amount recognized less cumulative amortization.

#### 3.19.4. Derecognition:

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

#### 3.19.5. Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally

enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the counterparty.

## 3.20. Earnings Per Share

Basic Earnings per share (EPS) amounts are calculated by dividing the profit for the year attributable to equity holders by the weighted average number of equities shares outstanding during the year. Diluted EPS amounts are calculated by dividing the profit attributable to equity holders adjusted for the effects of potential equity shares by the weighted average number of equity shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

## 3.21. Impairment of Non-Financial Assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. An asset is treated as impaired when the carrying cost of the asset exceeds its recoverable value being higher of value in use and net selling price. Value in use is computed at net present value of cash flow expected over the balance useful lives of the assets. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (Cash Generating Units – CGU).

An impairment loss is recognized as an expense in the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognized in earlier accounting period is reversed if there has been an improvement in recoverable amount.

#### 3.22. Provisions, Contingent Liabilities and Contingent Assets

#### 3.22.1. Provisions

Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

## 3.22.2. Contingent Liabilities

Contingent liability is a possible obligation arising from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events but is not recognized because it is not possible that an outflow of resources embodying

economic benefit will be required to settle the obligations or reliable estimate of the amount of the obligations cannot be made. The Company discloses the existence of contingent liabilities in Other Notes to Financial Statements.

## 3.22.3. Contingent Assets

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits. Contingent Assets are not recognized though are disclosed, where an inflow of economic benefits is probable.

## 3.22.4. Intangible Assets

## 3.22.4.1. Recognition and Measurement

Intangible assets are stated at cost on initial recognition and subsequently measured at cost less accumulated amortization and accumulated impairment loss, if any.

#### 3.23. Amortization

- 3.23.1. Software's are amortized over a period of three years.
- 3.23.2. The amortization period and the amortization method are reviewed at least at the end of each financial year. If the expected useful life of the assets is significantly different from previous estimates, the amortization period is changed accordingly.

#### 3.24. Operating Segment

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker of the Company is responsible for allocating resources and assessing performance of the operating segments and accordingly is identified as the chief operating decision maker. The Company has identified one reportable segment only based on the information reviewed by the CODM.

## 4. SIGNIFICANT JUDGEMENTS AND KEY SOURCES OF ESTIMATION IN APPLYING ACCOUNTING POLICIES

4.1. Estimates and judgments are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances. Information about Significant judgments and Key sources of estimation made in applying accounting policies that have the most significant effects on the amounts recognized in the financial statements is included in the following notes:

- 4.2. Recognition of Deferred Tax Assets: The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the Company's future taxable income against which the deferred tax assets can be utilized. In addition, significant judgment is required in assessing the impact of any legal or economic limits.
- 4.3. Classification of Leases: The Company enters into leasing arrangements for various assets. The classification of the leasing arrangement as a finance lease or operating lease is based on an assessment of several factors, including, but not limited to, transfer of ownership of leased asset at end of lease term, lessee's option to purchase and estimated certainty of exercise of such option, proportion of lease term to the asset's economic life, proportion of present value of minimum lease payments to fair value of leased asset and extent of specialized nature of the leased asset.
- 4.4. Where the rate implicit in the lease is not readily available, an incremental borrowing rate is applied. This incremental borrowing rate reflects the rate of interest that the lessee would have to pay to borrow over a similar term, with a similar security, the funds necessary to obtain an asset of a similar nature and value to the right of-use asset in a similar economic environment. Determination of the incremental borrowing rate requires estimation.
- 4.5. Defined Benefit Obligation (DBO): Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, medical cost trends, anticipation of future salary increases and the inflation rate. The Company considers that the assumptions used to measure its obligations are appropriate. However, any changes in these assumptions may have a material impact on the resulting calculations.
- 4.6. Provisions and Contingencies: The assessments undertaken in recognising provisions and contingencies have been made in accordance with Indian Accounting Standards (Ind AS) 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events is applied best judgment by management regarding the probability of exposure to potential loss.
- 4.7. Impairment of Financial Assets: The Company reviews it carrying value of investments carried at amortized cost annually, or more frequently when there is indication of impairment. If recoverable amount is less than its carrying amount, the impairment loss is accounted for.
- 4.8. Allowances for Doubtful Debts: The Company makes allowances for doubtful debts through appropriate estimations of irrecoverable amount. The identification of doubtful debts requires use of judgment and estimates. Where the expectation is different from the original estimate, such difference will impact the carrying value of the trade and other receivables and doubtful debts expenses in the period in which such estimate has been changed.
- 4.9. Fair value measurement of financial Instruments: When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices

in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The input to these models are taken from observable markets where possible, but where this not feasible, a degree of judgement is required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

## **Basis of accounting**

#### **Basis of consolidation**

- **1.1.** The consolidated financial statements comprise the financial statements of the Group and entities controlled by the entity and its subsidiaries. Control is achieved when the Group:
- **1.1.1.** Has power over the investee,
- 1.1.2. Is exposure or rights to variable return from its involvement with the investee, and
- **1.1.3.** Has the ability to use its power over the investee to affect its returns.
- **1.2.** The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the above three elements of control.
- **1.3.** When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:
  - **1.3.1.** Contractual arrangement with the other vote holders of the investee
  - **1.3.2.** Rights arising from other contractual arrangements,
  - **1.3.3.** The Group's voting rights and potential voting rights and
- **1.3.4.** Size of the Group's holding of voting rights relative to the size and dispersion of holdings of other investees with voting rights.
- **1.3.5.** Any additional facts and circumstances that indicate that the Group has, or does not have, the current ability to direct the relevant activities at the time that decisions need to be made, including voting patterns at previous shareholders' meetings
- **1.4.** Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

- **1.5.** If an entity of the Group uses accounting policies other than those adopted in the consolidated financial statements, for like transactions and other events in similar circumstances appropriate adjustments are made to that entity's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies except in the case of JV Group it wasn't done due to practical difficulties.
- **1.6.** The financial statements of all entities used for the purpose of consolidation are drawn upto the same reporting date as that of the Group, i.e., year ended on 31st March 2025.
- **1.7.** Consolidation procedure followed is as under:
  - **1.7.1.** Items of assets, liabilities, equity, income, expenses and cash flows of the parent with those of its subsidiaries are combined like to like basis. For this purpose, income and expenses of the subsidiary are based on the amounts of the assets and liabilities recognized in the consolidated financial statements at the acquisition date,
- **1.7.2.** The difference between carrying amount of the parent's investment in each subsidiary and the parent's portion of equity of each subsidiary is subject to adjustment of goodwill and
- **1.7.3.** Intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the Group are eliminated subject to impact of deferred taxes. Profit or loss and each component of other comprehensive income (OCI) are attributable to equity holders of the parent of the Group and to the non-controlling interest, even if this results in the non-controlling interests having deficit balance.
- **1.8.** A change in the ownership interest of a subsidiary, without loss of control, is accounted for as an equity transaction.

#### **Associates**

**1.9.** Associates are entities over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies. This is generally the case where the Group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting, after initially being recognized at cost.

## **Joint ventures**

**1.10.** Joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control Investments in joint ventures are accounted for using the equity method, after initially being recognized at cost in the consolidated balance sheet.

## **Equity Method**

- **1.11.** Under the equity method of accounting, the investments are initially recognized at cost and adjusted thereafter to recognize the Group's share of the post-acquisition profits or losses of the investee in statement of profit and loss, and the Group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates and joint ventures are recognized as a reduction in the carrying amount of the investment.
- **1.12.** When the Group's share of losses in an equity accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognize further losses, unless it has incurred obligations or made payments on behalf of the other entity. Such further losses aren't disclosed as part of Current Liabilities.

- **1.13.** Unrealized gains on transactions between the Group and its associates and joint ventures are eliminated to the extent of the Group's interest in these entities. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.
- **1.14.** The carrying amount of equity accounted investments are tested for impairment in accordance with the Accounting Policy described therein

## Goodwill

- **1.15.** After initial recognition, goodwill arising on an acquisition of a business is measured at cost as established at the date of acquisition of the business less accumulated impairment losses, if any.
- **1.16.**For the purposes of impairment testing, goodwill is allocated to each of the Group's cashgenerating units (or Groups of cash-generating units) that is expected to benefit from the synergies of the combination.
- 1.17.A cash-generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than it carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognized directly in the Consolidated Statement of Profit and Loss. An impairment loss recognized for goodwill is not reversed in subsequent periods.
- **1.18.**On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

- **1.19.** The Group's policy for goodwill arising on the acquisition of an associate and a joint venture is described in notes below.
- **1.20.** The Group discontinues the use of the equity method from the date when the investment ceases to be an associate or a joint venture, or when the investment is classified as held for sale.
- **1.21.**When a Group entity transacts with an associate or a joint venture of the Group, profits and losses resulting from the transactions with the associate or joint venture are recognized in the Group's consolidated financial statements only to the extent of interests in the associate or joint venture that are not related to the Group.

#### 2. BASIS OF ACCOUNTING (General)

## 2.1. Statement of Compliance

These financial statements have been prepared in accordance with the Indian Accounting Standards ("Ind AS") as prescribed by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ("the Act"), read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended), other relevant provisions of the Act and other accounting principles generally accepted in India.

#### 2.2. Basis of Measurement

The Group maintains accounts on accrual basis following the historical cost convention, except for followings:

- **2.2.1.** All assets falling under Property Plant and Equipment (PPE) have been valued at Fair Value.
- **2.2.2.** Certain Financial Assets and Liabilities is measured at Fair value/ Amortized cost (refer accounting policy regarding financial instruments);
- **2.2.3.** Defined Benefit Plans Plan assets measured at fair value.

## 2.3. Functional and Presentation Currency

The Financial Statements are presented in Indian Rupee (₹), which is the functional currency of the Group and the currency of the primary economic environment in which the Group operates. All amounts disclosed in financial statements and notes have been rounded off to the nearest Lacs (with two places of decimal) as per the requirements of Schedule III, unless otherwise stated.

## 2.4. Use of Estimates and Judgements

The preparation of financial statements in conformity with Ind AS requires judgments, estimates and assumptions to be made that affect the reported amount of assets and liabilities, disclosure of contingent liabilities on the date of the financial statements and the reported amount of revenues and expenses during the reporting period. Difference between the actual results and estimates are recognized in the period in which the results are known/ materialized.

#### 2.5. Presentation of Financial Statements

The Balance Sheet and the Statement of Profit and Loss are prepared and presented in the format prescribed in the Schedule III to the Companies Act, 2013 ("the Act"). The Statement of Cash Flows has been prepared and presented as per the requirements of Ind AS 7 "Statement of Cash flows". The disclosure requirements with respect to items in the Balance Sheet and Statement of Profit and Loss, as prescribed in the Schedule III to the Act, are presented by way of notes forming part of the financial statements along with the other notes required to be disclosed under the notified Indian Accounting Standards.

## 2.6. Operating Cycle for current and non-current classification

All assets and liabilities have been classified as current or non-current as per the Group's normal operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013 and Ind AS 1. The Group has ascertained its operating cycle as twelve months for the purpose of current and non-current classification of assets and liabilities.

#### 2.6.1. An asset is classified as current when it is:

- **2.6.1.1.** Expected to be realized or intended to sold or consumed in normal operating cycle;
- **2.6.1.2.** Held primarily for the purpose of trading;
- **2.6.1.3.** Expected to be realized within twelve months after the reporting period; or
- **2.6.1.4.** Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All the other assets are classified as non-current.

## 2.6.2. A liability is current when:

- **2.6.2.1.** It is expected to be settled in normal operating cycle;
- **2.6.2.2.** It is held primarily for the purpose of trading;
- **2.6.2.3.** It is due to be settled within twelve months after the reporting period; or
- **2.6.2.4.** There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All the other liabilities are classified as non-current.

**2.6.3.** Deferred Tax Assets and Liabilities are classified as non- current assets and liabilities respectively.

#### 2.7. Business Combination

Business Combinations are accounted for using the acquisition method of accounting, except for common control transactions which are accounted using the pooling of interest method that is accounted at carrying values. The cost of an acquisition is measured at the fair value of the assets transferred, equity instruments issued and liabilities assumed at their acquisition date i.e. the date on which control is acquired. Contingent consideration to be transferred is recognised at fair value and included as part of cost of acquisition. Transaction related costs are expensed in the period in which the costs are incurred. For each business combination, the Group elects whether to measure the non-controlling interests in the acquire at fair value or at the proportionate share of the acquiree's identifiable net assets. Goodwill arising on business combination is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the fair value of net identifiable assets acquired and liabilities assumed. After initial recognition, Goodwill is tested for impairment annually and measured at cost less any accumulated impairment losses if any.

#### 2.8. Measurement of Fair Values

A number of the Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

- **2.8.1.** Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:
  - **2.8.1.1.** In the principal market for the asset or liability, or
  - **2.8.1.2.** In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset considers a market participant's

ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

- **2.8.2.** The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.
- **2.8.3.** All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the input that is significant to the fair value measurement as a whole:

**Level 1** — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

**Level 2** — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable and

**Level 3** — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

External valuers are involved for valuation of significant assets & liabilities. Involvement of external valuers is decided by the management of the Group considering the requirements of Ind AS and selection criteria include market knowledge, reputation, independence and whether professional standards are maintained.

#### 3. ACCOUNTING POLICIES

A summary of the significant accounting policies applied in the preparation of the financial statements are as given below. These accounting policies have been applied consistently to all the periods presented in the financial statements.

#### 3.1. Property, Plant and Equipment

#### 3.1.1. Recognition and Measurement:

Property (Land and Building), plant and equipment held for use in the production or/and supply of goods or services, or for administrative purposes as were brought down at historical cost are re-stated in the balance sheet at Fair Market Value less any

accumulated depreciation and accumulated impairment losses (if any). The Group has revalued Property plant and equipment as on 1st April 2018 at its fair values determined by an independent External Valuer. The Valuer determined the fair value by reference to market-based evidence. This means that valuations performed by the Valuer were based on active market prices, adjusted for any difference in the nature, location or condition of the specific property.

Cost of an item of property, plant and equipment acquired comprises its purchase price, including import duties and non-refundable purchase taxes, after deducting any trade discounts and rebates, any directly attributable costs of bringing the assets to its working condition and location for its intended use and present value of any estimated cost of dismantling and removing the item and restoring the site on which it is located.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as separate items (major components) of property, plant and equipment.

Profit or loss arising on the disposal of property, plant and equipment are recognized in the Statement of Profit and Loss.

## **3.1.2.** Subsequent Measurement:

Subsequent costs are included in the asset's carrying amount, only when it is probable that future economic benefits associated with the cost incurred will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced

Major Inspection/ Repairs/ Overhauling expenses are recognized in the carrying amount of the item of property, plant and equipment as a replacement if the recognition criteria are satisfied. Any Unamortized part of the previously recognized expenses of similar nature is derecognized.

## **3.1.3.** Depreciation and Amortization:

Depreciation on Property, Plant & Equipment is provided on Straight Line Method in terms of life span of assets prescribed in Schedule II of the Companies Act, 2013 or as reassessed by the Group based on the technical evaluation.

In case the cost of part of tangible asset is significant to the total cost of the assets and useful life of that part is different from the remaining useful life of the asset, depreciation has been provided on straight line method based on internal assessment and independent technical evaluation carried out by external valuers, which the management believes that the useful lives of the component best represent the period over which it expects to use those components.

Depreciation on additions (disposals) during the year is provided on a pro-rata basis i.e., from(upto) the date on which asset is ready for use (disposed of).

Depreciation method, useful lives and residual values are reviewed at each financial year-end and adjusted if appropriate.

## 3.1.4. Impairment

Property, plant and equipment are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purposes of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit (CGU) to which the asset belongs. If such assets are considered to be impaired, the impairment to be recognized in the statement of Profit and Loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of Profit and Loss if there has been a change in estimates used to determine the recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated depreciation) had no impairment loss been recognized for the asset in prior years.

## 3.1.5. Disposal of Assets

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between net disposal proceeds and the carrying amount of the asset and is recognized in the statement of profit and loss.

## **3.1.6.** Capital Work in Progress

Capital work-in-progress is stated at cost which includes expenses incurred during construction period, interest on amount borrowed for acquisition of qualifying assets and other expenses incurred in connection with project implementation in so far as such expenses relate to the period prior to the commencement of commercial production.

#### 3.2. Leases

- **3.2.1.** The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right-of-use (ROU) for the asset or assets, even if that right is not explicitly specified in an arrangement.
- **3.2.2.** Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosures of leases for both lessees and lessors. It introduced a single, on-balance sheet accounting model for lessees.
- **3.2.3.** The Group is lessee mainly in Land & Building (Factory and Offices). It recognised all such arrangements as right-of-use (ROU) asset and lessee as liability. The ROU is considered when Group has all the right to drive economic benefits from the use of underlying asset. The right-of-use (ROU) asset is measured by discounting future lease payments to net present value (NPV). All lease payments during reporting period are recognised either as operational lease or financial lease as per Ind AS 116. However low value leases and leases below 12 months are treated as operating lease only.

## 3.2.4. Group as lessor

**3.2.4.1.** Finance Lease: - Leases which effectively transfer to the lessee substantially all the risks and benefits incidental to ownership of the leased item are classified and accounted for as finance lease. Lease rental receipts are apportioned between the finance income and capital repayment based on the implicit rate of return. Contingent rents are recognized as revenue in the period in which they are earned.

3.2.4.2. Operating Lease: - Leases in which the Group does not transfer substantially all the risks and rewards of ownership of an asset are classified as operating leases. Rental income from operating leases is recognized on a straight-line basis over the term of the relevant lease except where scheduled increase in rent compensates the Group with expected inflationary costs.

## 3.2.5. Group as lessee

3.2.5.1.Finance Lease: - Finance Leases, which effectively transfer to the lessee substantially all the risks and benefits incidental to ownership of the leased item, are capitalized at the lower of the fair value and present value of the minimum lease payments at the inception of the lease term and disclosed as leased assets. Lease Payments under such leases are apportioned between the finance charges and reduction of the lease liability based on the implicit rate of return. Finance charges are charged directly to the statement of profit and loss. Lease management fees, legal charges

and other initial direct costs are capitalized. If there is no reasonable certainty that the Group will obtain the ownership by the end of lease term, capitalized leased assets are depreciated over the shorter of the estimated useful life of the asset or the lease term.

**3.2.5.2.Operating Lease:** - Assets acquired on leases where a significant portion of risk and reward is retained by the lessor are classified as operating leases. Lease rental are charged to statement of profit and loss on a straight-line basis over the lease term, except where scheduled increase in rent compensates the Group with expected inflationary costs.

## 3.3. Inventories

Inventories are valued at the lower of cost and net realizable value (NRV). Cost is measured by including, unless specifically mentioned below, cost of purchase and other costs incurred in bringing the inventories to their present location and condition. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

NRV is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale. Cost is as curtained on weighted average basis for all inventories except for byproducts and scrap materials which are valued at net realizable value.

#### 3.4. Cash and Cash Equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of change in value.

For the purpose of the statement of cash flows, cash and cash equivalents includes cash on hand, term deposits and other short-term highly liquid investments, net of bank overdrafts as they are considered an integral part of the Group's cash management. Bank overdrafts are shown within short-term borrowings in the balance sheet.

#### 3.5. Income Tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences, unused tax losses etc. Current and deferred tax is recognized in the statement of profit & loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

#### **Current Tax: -**

Current tax liabilities (or assets) for the current and prior periods are measured at the amount expected to be paid to (recovered from) the taxation authorities using the tax rates (and tax laws) that have been enacted or substantively enacted, at the end of the reporting period.

#### Deferred Tax: -

Deferred Tax assets and liabilities is measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purposes (i.e., tax base). Deferred tax is also recognized for carry forward of unused tax losses and unused tax credits.

Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period. The Group reduces the carrying amount of a deferred tax asset to the extent that it is no longer probable that sufficient taxable profit will be available to allow the benefit of part or that entire deferred tax asset to be utilized. Any such reduction is reversed to the extent that it becomes probable that sufficient taxable profit will be available.

Deferred tax relating to items recognized outside the Statement of Profit and Loss is recognized either in other comprehensive income or in equity. Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Group intends to settle its current tax assets and liabilities on a net basis.

## 3.6. Revenue Recognition

Revenue is recognized based to the extent it is probable that the economic benefit will flow to the Group and revenue can be reliably measured regardless of when the payment is being made. Revenue is measured at the fair value of the consideration received or receivable, considering contractually defined terms of payment, and excludes taxes & duties collected on behalf of the

Government and is reduced for estimated customer returns, rebates and other similar allowances.

#### 3.6.1. Sale of Products:

The Group recognizes revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the Group and significant risk and reward incidental to sale of products is transferred to the buyer, usually on delivery of the goods. Accruals for sales return, chargeback and other allowances are provided at the point of sale based on the past experience.

## 3.6.2. Revenue from rendering of services:

Revenue from rendering of services is recognized on pro-rata basis over the period of contract and when the performance of agreed contractual task has been completed.

#### 3.6.3. OtherIncome:

- **3.6.3.1.Interest Income:** For all debt instruments measured either at amortized cost or at fair value through other comprehensive income (FVTOCI), interest income is recorded using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset.
- **3.6.3.2.Other Income:** Other items of income are accounted as and when the right to receive such income arises and it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably.

## 3.7. Employee Benefits

#### 3.7.1. Short Term Benefits

Short term employee benefit obligations are measured on an undiscounted basis and are expensed as the related services are provided. Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within twelve months after the end of the period in which the employees render

the related service are recognized in respect of employees' services up to the end of the reporting period.

#### 3.7.2. Other Long-Term Employee Benefits

The liabilities for earned/privilege leave that are not expected to be settled wholly within twelve months are measured as the present value of the expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the government securities (G-Sec) at the end of the reporting period that have terms approximating to the terms of related obligation. Remeasurement as the result of experience adjustment and changes in actuarial assumptions are recognized in statement of profit and loss.

## 3.7.3. Post-Employment Benefits

The Group operates the following post-employment schemes:

#### 3.7.3.1. Defined Contribution Plan

Defined contribution plans such as Provident Fund, Employee State Insurance etc. are charged to the statement of profit and loss as and when incurred and paid to Authority.

#### 3.7.3.2. Defined Benefit Plans

The liability or asset recognized in the Balance Sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods. The defined benefit obligation is calculated annually by Actuaries using the projected unit credit method.

- 3.7.3.2.1. The liability recognized for defined benefit plans is the present value of the defined benefit obligation at the reporting date less the fair value of plan assets, together with adjustments for unrecognized actuarial gains or losses and past service costs. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. The benefits are discounted using the government securities (G-Sec) at the end of the reporting period that have terms approximating to the terms of related obligation.
- **3.7.3.2.2.** Remeasurement of the net defined benefit obligation, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling, are recognized in other comprehensive income. Remeasurement recognized in other comprehensive income is reflected immediately in retained earnings and will not be reclassified to the statement of profit and loss.

#### 3.8. Foreign Currency Transactions

- **3.8.1.** Foreign currency (other than the functional currency) transactions are translated into the functional currency using the spot rates of exchanges at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rate of exchanges at the reporting date.
- **3.8.2.** Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities are generally recognized in profit or loss in the year in which they arise except for exchange differences on foreign currency borrowings relating to assets under construction for future productive use, which are included in the cost of those qualifying assets. When they are regarded as an adjustment to interest costs on those foreign currency borrowings, the balance is presented in the Statement of Profit and Loss within finance costs.

#### 3.9. Borrowing Costs

- **3.9.1.** Borrowing Costs consists of interest and other costs that an entity incurs in connection with the borrowings of funds. Borrowing costs also includes foreign exchange difference to the extent regarded as an adjustment to the borrowing costs.
- **3.9.2.** Borrowing costs directly attributable to the acquisition or construction of a qualifying asset are capitalized as a part of the cost of that asset that necessarily takes a substantial period of time to complete and prepare the asset for its intended use or sale.
- **3.9.3.** Transaction costs in respect of long-term borrowing are amortized over the tenure of respective loans using Effective Interest Rate (EIR) method. All other borrowing costs are recognized in the statement of profit and loss in the period in which they are incurred.

#### 3.10. Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

#### 3.11. Financial Assets

#### 3.11.1. Recognition and Initial Measurement:

All financial assets are initially recognized when the Group becomes a party to the contractual provisions of the instruments. A financial asset is initially measured at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

- **3.11.2.** Classification and Subsequent Measurement: For purposes of subsequent measurement, financial assets are classified in four categories:
  - **3.11.2.1.** Measured at Amortized Cost;
  - **3.11.2.2.** Measured at Fair Value through Other Comprehensive Income (FVTOCI);

## **3.11.2.3.** Measured at Fair Value through Profit or Loss (FVTPL); and

**3.11.2.4.** Equity Instruments designated at Fair Value through Other Comprehensive Income (FVTOCI).

Financial assets are not reclassified subsequent to their initial recognition, except if and in the period the Group changes its business model for managing financial assets.

- **3.11.2.1. Measured at Amortized Cost:** A debt instrument is measured at the amortized cost if both the following conditions are met:
  - **3.11.2.1.1.** The asset is held within a business model whose objective is achieved by both collecting contractual cash flows; and
  - **3.11.2.1.2.** The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by considering any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the statement of profit or loss. The losses arising from impairment are recognized in the profit or loss. This category generally applies to trade receivables, cash and bank balances, loans and other financial assets of the Group.

**3.11.2.2. Measured at FVTOCI:** A debt instrument is measured at the FVTOCI if both the following conditions are met:

- **3.11.2.2.1.** The objective of the business model is achieved by both collecting contractual cash flows and selling the financial assets; and
- **3.11.2.2.2.** The asset's contractual cash flows represent SPPI.
- 3.11.2.2.3. Debt instruments meeting these criteria are measured initially at fair value plus transaction costs. They are subsequently measured at fair value with any gains or losses arising on remeasurement recognized in other comprehensive income, except for impairment gains or losses and foreign exchange gains or losses. Interest calculated using the effective interest method is recognized in the statement of profit and loss in investment income.
- 3.11.2.3. Measured at FVTPL: FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as FVTPL. In addition, the Group may elect to designate a debt instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the statement of profit and loss. Equity instruments which are, held for trading are classified as at FVTPL.
- 3.11.2.4. Equity Instruments designated at FVTOCI: For equity instruments, which has not been classified as FVTPL as above, the Group may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Group makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable. In case the Group decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment.

## **3.11.3.** Derecognition:

The Group derecognizes a financial asset on trade date only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

## 3.11.4. Impairment of Financial Assets:

The Group assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS – 109 requires expected credit losses to be measured through a loss allowance. The Group recognizes impairment loss for trade receivables that do not constitute a financing transaction using expected credit loss model, which involves use of a provision matrix constructed on the basis of historical credit loss experience. For all other financial assets, expected credit losses are measured at an amount equal to the 12 month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

#### 3.12. Financial Liabilities

## **3.12.1.** Recognition and Initial Measurement:

Financial liabilities are classified, at initial recognition, as at fair value through profit or loss, loans and borrowings, payables or as derivatives, as appropriate. All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

#### 3.12.2. Subsequent Measurement:

Financial liabilities are measured subsequently at amortized cost or FVTPL. A financial liability is classified as FVTPL if it is classified as held-for-trading, or it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss. Other financial liabilities are subsequently measured at amortized cost using the effective interest rate method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on de-recognition is also recognized in profit or loss.

#### 3.12.3. Financial Guarantee Contracts:

Financial guarantee contracts issued by the Group are those contracts that require a payment to be made to reimburse the holder for a loss it incurs because the specified

debtor fails to make a payment when due in accordance with the terms of a debt instrument. Financial guarantee contracts are recognized initially as a liability at fair value, adjusted for transaction costs that are directly attributable to the issuance of the guarantee. Subsequently, the liability is measured at the higher of the amount of loss allowance determined as per impairment requirement of Ind AS 109 and the amount recognized less cumulative amortization.

## 3.12.4. Derecognition:

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires.

## 3.12.5. Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the counterparty.

#### 3.13. Earnings Per Share

Basic Earnings per share (EPS) amounts are calculated by dividing the profit for the year attributable to equity holders by the weighted average number of equity shares outstanding during the year. Diluted EPS amounts are calculated by dividing the profit attributable to equity holders adjusted for the effects of potential equity shares by the weighted average number of equities shares outstanding during the year plus the weighted average number of equity shares that would be issued on conversion of all the dilutive potential equity shares into equity shares.

## 3.14. Impairment of Non-Financial Assets

The Group assesses, at each reporting date, whether there is an indication that an asset may be impaired. An asset is treated as impaired when the carrying cost of the asset exceeds its recoverable value being higher of value in use and net selling price. Value in use is computed at net present value of cash flow expected over the balance useful lives of the assets. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (Cash Generating Units – CGU).

An impairment loss is recognized as an expense in the Statement of Profit and Loss in the year in which an asset is identified as impaired. The impairment loss recognized in earlier accounting period is reversed if there has been an improvement in recoverable amount.

## 3.15. Provisions, Contingent Liabilities and Contingent Assets

#### 3.15.1. Provisions

Provisions are recognized when there is a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Provisions are determined by discounting the expected future cash flows (representing the best estimate of the expenditure required to settle the present obligation at the balance sheet date) at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

## 3.15.2. Contingent Liabilities

Contingent liability is a possible obligation arising from past events and the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group or a present obligation that arises from past events but is not recognized because it is not possible that an outflow of resources embodying economic benefit will be required to settle the obligations or reliable estimate of the amount of the obligations cannot be made. The Group discloses the existence of contingent liabilities in Other Notes to Financial Statements.

#### 3.15.3. Contingent Assets

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits. Contingent Assets are not recognized though are disclosed, where an inflow of economic benefits is probable.

## 3.15.4. Intangible Assets

**3.15.4.1.** Recognition and Measurement

Intangible assets are stated at cost on initial recognition and subsequently measured at cost less accumulated amortization and accumulated impairment loss, if any.

#### 3.16. Amortization

- **3.16.1.** Software's are amortized over a period of three years.
- **3.16.2.** The amortization period and the amortization method are reviewed at least at the end of each financial year. If the expected useful life of the assets is significantly different from previous estimates, the amortization period is changed accordingly.

#### 3.17. Operating Segment

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker of the Group is responsible for allocating resources and assessing performance of the operating segments and accordingly is identified as the chief operating decision maker. The Group has identified one reportable segment only based on the information reviewed by the CODM.

# 4. SIGNIFICANT JUDGEMENTS AND KEY SOURCES OF ESTIMATION IN APPLYING ACCOUNTING POLICIES

Estimates and judgments are continually evaluated. They are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances. Information about Significant judgments and Key sources of estimation made in applying accounting policies that have the most significant effects on the amounts recognized in the financial statements is included in the following notes:

- **4.1. Recognition of Deferred Tax Assets:** The extent to which deferred tax assets can be recognized is based on an assessment of the probability of the Group's future taxable income against which the deferred tax assets can be utilized. In addition, significant judgment is required in assessing the impact of any legal or economic limits.
- **4.2. Classification of Leases:** The Group enters into leasing arrangements for various assets. The classification of the leasing arrangement as a finance lease or operating lease is based on an assessment of several factors, including, but not limited to, transfer of ownership of

leased asset at end of lease term, lessee's option to purchase and estimated certainty of exercise of such option, proportion of lease term to the asset's economic life, proportion of present value of minimum lease payments to fair value of leased asset and extent of specialized nature of the leased asset.

- **4.3. Defined Benefit Obligation (DBO):** Employee benefit obligations are measured on the basis of actuarial assumptions which include mortality and withdrawal rates as well as assumptions concerning future developments in discount rates, medical cost trends, anticipation of future salary increases and the inflation rate. The Group considers that the assumptions used to
  - measure its obligations are appropriate. However, any changes in these assumptions may have a material impact on the resulting calculations.
- 4.4. Provisions and Contingencies: The assessments undertaken in recognising provisions and contingencies have been made in accordance with Indian Accounting Standards (Ind AS) 37, 'Provisions, Contingent Liabilities and Contingent Assets'. The evaluation of the likelihood of the contingent events is applied best judgment by management regarding the probability of exposure to potential loss.
- **4.5. Impairment of Financial Assets:** The Group reviews it carrying value of investments carried at amortized cost annually, or more frequently when there is indication of impairment. If recoverable amount is less than its carrying amount, the impairment loss is accounted for.
- **4.6. Allowances for Doubtful Debts:** The Group makes allowances for doubtful debts through appropriate estimations of irrecoverable amount. The identification of doubtful debts requires use of judgment and estimates. Where the expectation is different from the original estimate, such difference will impact the carrying value of the trade and other receivables and doubtful debts expenses in the period in which such estimate has been changed.
- **4.7. Fair value measurement of financial Instruments:** When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow model. The input to these models are taken from observable markets where possible, but where this not feasible, a degree of judgement is

required in establishing fair values. Judgements include considerations of inputs such as liquidity risk, credit risk and volatility.

The Note Referred to above form an integral part of Balance Sheet.
