**ANNEXURE - D OF BOARD REPORT****MANAGEMENT DISCUSSION AND ANALYSIS REPORT****INDUSTRY STRUCTURE AND DEVELOPMENT****ECONOMIC OVERVIEW****Global Economy**

The global economy showed steady progress, despite facing a challenging and uncertain environment. According to the IMF World Economic Outlook, April 2025, the world economy grew by 3.3 percent in 2024, and is projected to grow by 2.8 percent and 3.0 percent in 2025 and 2026 respectively. While these figures reflect a stable trend, they also signal that the pace of growth is more moderate compared to the past. Sector-wise, the global services sector continued to expand, while manufacturing showed signs of weakness, particularly in Europe. Trade policy uncertainty remains high, with more protectionist measures being adopted by major economies. This could impact investment flows and global trade if such trends continue.

Looking ahead, risks from geopolitical tensions and climate-related events persists. As the global economy adjusts to new realities, businesses are focusing more on resilience, diversification, and long-term value creation.

Indian Economy

India's economy remained on a steady growth path in FY 2025-2026 also, demonstrating resilience amid global headwinds and geopolitical uncertainties. As per the first advance estimates released by the Ministry of Statistics & Programme Implementation (MoSPI), real GDP is projected to grow by 6.4 percent for the year, reaffirming India's status as one of the fastest-growing major economies globally.

The industrial sector recorded a growth of 6.2 percent, led by infrastructure and construction activities. India's Manufacturing PMI remained in expansion, and outlook surveys by the RBI indicate improving order books and business sentiment in upcoming quarters. Exports grew by 5.6 percent in H1 FY26, while imports remained largely flat.

At Aggarsain Spinners Limited, we continue to monitor these developments closely. While several economic uncertainty remains, opportunities are emerging and we well positioned to capture these.

Indian Textile Industry

The global textile industry had grown consistently since CY2018, barring CY2020, which saw a decline due to Covid-19. The growth has continued and the global textile market size attained a value of around USD 988 Billion in 2024. Going ahead, the industry is expected to grow by around 3-4 percent driven by increasing demand from the apparel industry, newer trends in fast fashion segment coupled with the growth of e-commerce platforms. However, the industry may face challenges due to ongoing tariff situation.

India is the second largest producer of cotton globally, which provides a significant competitive advantage.

**Key segments of the textile industry**

The textile industry in India is diversified with handwoven and handspun textile at one end and sophisticated textile mills on the other end of the spectrum. Presence of players across the value chain starting from production of raw material to production of yarn, fabric and garments in the country makes the Indian textile industry well placed at a global level.

Between fiscals 2019 to fiscal 2024, the total Indian textile and apparel industry had grown at a CAGR of 4.5 percent. Within the total industry, the domestic Indian textile and apparel industry had grown at a higher pace of 5.8 percent, while exports have grown at a CAGR of 2.1 percent.

Yarn manufacturing consists of sequence of various processes where raw fibers are converted to yarn which can be further used in the manufacturing of various products such as fabrics and garments. The fibers are converted into yarn through a process called spinning followed by weaving and knitting. A yarn can either be made from natural fibers such as cotton and wool or from man-made fibers (MMF) such as polyester, viscose, nylon, acrylic, polypropylene among others.

The cotton yarn accounts for more than 50 percent share of the Indian textile yarn market. Cotton yarn market registered a CAGR of 1.5 percent between fiscals 2019 and 2024 to reach Rs 960 billion. The market for MMF accounts for around 40 percent of the Indian textile yarn market in fiscal 2026.

The future growth in Indian textile and apparel market will be led by various economic factors such as increase in discretionary income and rising urban population. Further, the demand is poised by increase in online retailing, shift from cotton to man-made fibre, fast fashion, and robust growth of technical textiles segment. Additionally, global industry expanding outside of China would aid the Indian export markets in the growth trajectory. Bangladesh is the second largest exporter of readymade garments. However, the socio-political disturbances erupting in Bangladesh during 2024 have shifted some RMG orders to India and this trend may continue on the future thus benefitting the Indian textile industry. The cotton yarn market is expected to grow at a 4.5-5.5% CAGR between fiscals 2024 and 2028 driven by recovery in global trade.

The ongoing tariffs imposed by the USA will have consequences on the Indian textile industry as it creates uncertainty and volatility for the business and may adversely impact the India's GDP growth, decline in export volumes and export revenue and supply chain disruptions. However, India has a competitive advantage due to higher tariffs imposed on other competing countries in the textile sector.

OPPORTUNITIES AND THREATS

Opportunities

- Extension of the scheme for Rebate of State and Central Taxes and Levies (RoSCTL) till March 31, 2026, for the export of apparel, garments and made-ups with the same rates would benefit textile companies.
- The 'China plus one' diversification policy will benefit Indian manufacturers. As global retailers are looking for an alternate supply base, India has emerged as an attractive option for manufacturing and exports of textiles and apparels.
- The rapid growth of the retail sector and E-commerce will boost the growth of the textile industry.

Despite the aforementioned growth initiatives, we acknowledge the existence of certain market challenges, including the global uncertainty, ongoing tariff situations, changing weather pattern adversely impacting the cotton crop, volatility in the cotton prices and the availability of high quality cotton crops.

Threats

- Being a labour-intensive sector, the shortage of skilled workforce may impact the operations and result in inability to complete orders.
- Compliance issues with the environmental norms and regulations.
- Competition in the global market, especially from the textile and garment industries in Bangladesh and China.

SEGMENT WISE OR PRODUCT WISE PERFORMANCE

The Company primarily operates and indulged in one segment only i.e. Textile Sector, during the period under review, the Company was engaged into trading of fabric and cotton yarn, cotton waste etc.

OUTLOOK

FINANCIAL OUTLOOK:

During the period under review, majorly from the trading of textile and textile products i.e. Fabric, Cotton Yarn and other textile products, your Company financial performance was quite good enough as compared to the previous financial year, however with the changing scenario of global market and changing mood in terms of demand from domestic market, the management is quite hopeful that profitability of the

Company will improve in future.

COMPANY OUTLOOK:

Despite near-term uncertainties, we remain optimistic about the medium term and intend to continue investing in our growth engines. The Capex will be funded mostly from internal accruals. With a standout performance in FY ended 31st March, 2026, and reasonably good order book position, we hope to achieve a double-digit growth in revenue for FY 2026-2027, maintain or marginally improve the margins and improve ROCE. Demand in Textiles segment will vary by market. While domestic markets are expected to improve, US volumes may see modest growth or remain flat. Demand from Europe and UK is expected to remain muted. Things will change for better in case India is able to sign any free trade agreement with any of the key geographies. We expect to grow our traditional textile business at a more secular rate aligned to India's GDP.

RISKS AND CONCERN

The Company has a robust Enterprise Risk Management framework for timely and effective identification, assessment, and mitigation of key business and operational risks. The key risks and their corresponding mitigation measures are described below:

Economic risk

The geopolitical turmoil, global economic slowdown, high inflation and the threat of a looming recession in key markets like the US and Europe have led to a slowdown in the export market. Demand compression could reduce the Company's export business. The macroeconomic environment in the US/EU markets has started to improve though the export demand continues to remain uncertain. However, the domestic market will continue to provide sizeable business opportunities for the Company.

Technology risk:

There is a constant requirement for technology upgradation and regular R&D to enhance efficiency and productivity. Failure to use the latest and sustainable technologies to cater to the changing requirements of the global market may lead to loss of business.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:

Management has put in place effective Internal Control Systems to provide reasonable assurance for:

- Safeguarding Assets and their usage.
- Maintenance of Proper Accounting Records and
- Adequacy and Reliability of the information used for carrying on Business Operations. Key elements of the Internal Control Systems are as follows:
 - Existence of Authority Manuals and periodical updating of the same for all Functions.
 - Existence of clearly defined organizational structure and authority.
 - Existence of corporate policies for Financial Reporting and Accounting.
 - Existence of Management information system updated from time to time as may be required.
 - Existence of Annual Budgets and Long-Term Business Plans.
 - Existence of Internal Audit System.
 - Periodical review of opportunities and risk factors depending on the Global / Domestic Scenario and to undertake measures as may be necessary.

Internal Audit Reports are regularly circulated for perusal of Senior Management for appropriate action as required.

HUMAN RESOURCE/INDUSTRIAL RELATIONS:

The Company have a qualified and professional employee base. Our manpower is a prudent mix of the experienced and young people which gives us the dual advantage of stability and growth, execution of services within time and quality. We believe human capital is one of the most valuable assets of our Company as their technical know-how and skill sets position us at a competitive advantage.

Human Resources Development, in all its aspects like training in safety and social values is under constant focus of the management. Relations between the management & the employees at all levels remained healthy & cordial throughout the year. The Management and the employees are dedicated to achieve the corporate objectives and the targets set before the company.

INDEPENDENT AUDITOR'S REPORT

**To the Members of
M/s Aggarsain Spinners Limited**

Report on Audit of Standalone Financial Statements

We have audited the accompanying Standalone Financial Statements of Aggarsain Spinners Limited ("the Company"), which comprise the Balance Sheet as at March 31, 2026, the Statement of Profit and Loss (Including the Other Comprehensive Income), the Statement of Cash Flow and Statement of Change in Equity for the year then ended, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as the "standalone financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India including, of the state of affairs of the Company as at March 31, 2026 and its profit, total comprehensive income, changes in equity and its cash flow for the year ended on that date .

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing ("SA"s) specified under Section 143(10) of the Companies Act 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Information Other than the Financial Statements and Auditor's Report Thereon The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibilities for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flows of the Company in accordance with the Ind AS and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those

risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management.
- (d) Conclude on the appropriateness of Management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**Report on Other Legal and Regulatory Requirements**

1. Corporate Information

M/s Aggarsain Spinners Limited (CIN: L17297HR1998PLC034043) ("the Company") is a public limited company domiciled and incorporated under the provisions of the Companies Act, 1956 on 05th November, 1993 in India and its shares are publicly traded on the Metropolitan Stock Exchange ("MSEI"), India. The Registered Office of the company is situated at 2nd Floor, SCO 404, Sector 20, Panchkula - 134116.

The principal business activity of the company is the trading of all type of textile products.

The financial statements were authorised for issue in accordance with a resolution passed by the Board of Directors on 30th May, 2026.

2. Significant Accounting Policies

2.1. Basis of preparation of financial Statements

The Standalone Financial statements of the Company have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by the Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 ('the Act') read with the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

These financial statements for the year ended 31st March 2026 have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 and the provisions of the Companies Act, 2013.

The accounting policies are applied consistently to all the periods presented in the standalone financial statement except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

The standalone financial statements provide comparative information in respect of the previous period. In addition, the Company presents an additional balance sheet at the beginning of the preceding period when there is a retrospective application of an accounting policy, a retrospective restatement, or a reclassification of items in standalone financial statements.

All figures are presented in rupees in thousand, unless otherwise specifically indicated.

2.2. Basis of measurement

The standalone financial statements have been prepared on a historical cost convention, except for the following assets and liabilities which have been measured at fair value or revalued amount: –

- Property, plant and equipment acquired as part of Business Acquisition,
- Certain financial assets and liabilities measured at fair value (refer accounting policy regarding

- financial instruments),
- Contingent/ Deferred consideration,
- Defined Benefit Plans- Measured at fair value, and
- Share based payments

Estimates and Judgments

The preparation of the financial statements in conformity with Ind AS requires management to make estimates, judgments and assumptions. These estimates, judgments and assumptions effect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Application of accounting policies that require critical accounting estimates involving complex and subjective judgments and the use of assumptions in these financial statements have been disclosed. Accounting estimates could change from period to period. Actual results may differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

2.4. Summary Of Significant Accounting Policies

a) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

- ☐ Expected to be realised or intended to be sold or consumed in normal operating cycle
- ☐ Held primarily for the purpose of trading
- ☐ Expected to be realised within twelve months after the reporting period, or
- ☐ Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current. A liability is current when:

- ☐ It is expected to be settled in normal operating cycle
- ☐ It is held primarily for the purpose of trading
- ☐ It is due to be settled within twelve months after the reporting period, or
- ☐ There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities and advance against current tax are classified as non-current assets

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

b) Foreign currencies

Functional and presentation currency

The Company's financial statements are presented in INR. For each entity the Company determines the functional currency and items included in the financial statements of each entity are measured using that functional currency.

**Transactions and balances**

Transactions in foreign currencies are measured in the functional currency of the Company and are recorded on initial recognition in the functional currency at exchange rates prevailing at the transaction dates. Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at fair value are translated at the exchange rate prevalent at the date when the fair value was determined. Non-monetary assets and non-monetary liabilities denominated in a foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of the transaction. The related revenue and expense are recognized using the same exchange rate.

Differences arising on settlement or translation of monetary items are recognised in the statement of profit and loss.

c) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

- Financial assets include cash and cash equivalents, trade receivables, employee advances, investments in equity and debt securities etc;
- Financial liabilities include long-term and short-term loans and borrowings, derivative financial liabilities, bank overdrafts and trade payables

Financial assets:**Initial measurement**

Financial assets are recognised in the company's statement of financial position when the company becomes a party to the contractual provisions of the instrument. The company determines the classification of its financial assets at initial recognition. All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Transaction costs of financial assets and liabilities carried at fair value through the Profit and Loss are immediately recognized in the Statement of Profit and Loss.

Subsequent measurement

The Subsequent measurement of financial assets depends on their classification which is as follows:

i) Financial assets at fair value through profit or loss

Financial assets at fair value through profit and loss include financial assets held for sale in the near term and those designated upon initial recognition at fair value through profit or loss.

ii) Financial assets measured at amortised cost

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Trade receivables do not carry any interest and are stated at their nominal value as reduced by appropriate allowance for estimated irrecoverable amounts based on the ageing of the receivables balance and historical experience. Additionally, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. Individual trade receivables are written off when management deems them not to be collectible.

iii) Financial assets at fair value through other comprehensive income (FVTOCI):

All equity investment in scope of IND AS 109 Financial Instruments are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which IND AS 103 Business Combinations applies are classified as fair value through profit or loss. For all other equity instruments, the Company may make irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument-to-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument through fair value through other comprehensive income (FVTOCI), then all fair value changes in the instruments excluding dividends, are recognized in OCI and is never recycled to statement of profit and loss, even on sale of the instrument. The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Financial liabilities and equity instruments:

a) Classification as debt or equity

Debt and equity instruments issued by a company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

b) Equity Instruments

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs

c) Financial Liabilities

Financial liabilities are classified as either financial liabilities 'at FVTPL' or 'other financial liabilities'.

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings or payables, as appropriate. All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement

The subsequent measurement of financial liabilities depends on their classification as follows:

Impairment of financial assets

The Company recognises an allowance for expected credit losses (ECLs) for all debt instruments not held at fair value through profit or loss. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

For trade receivables and contract assets, the Company applies a simplified approach in calculating

ECLs. Therefore, the Company does not track changes in credit risk, but instead recognises a loss allowance based on lifetime ECLs at each reporting date. The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment.

iv) Financial liabilities measured at amortized cost

After initial recognition, financial liabilities are subsequently measured at amortized cost using the effective interest method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process.

v) Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities designated upon initial recognition as at fair value through profit or loss.

Financial liabilities designated upon initial recognition at fair value through profit or loss are designated as such at the initial date of recognition, and only if the criteria in Ind AS 109 are satisfied. For liabilities designated as FVTPL, fair value gains/ losses attributable to changes in own credit risk are recognized in OCI. These gains/ losses are not subsequently transferred to P&L. However, the Company may transfer the cumulative gain or loss within equity. All other changes in fair value of such liability are recognised in the statement of profit and loss.

De-recognition of financial liabilities

Financial liabilities are derecognized when these are extinguished, that is when the obligation is discharged, cancelled or has expired.

Offsetting of financial instruments

Financial assets and financial liabilities are offset with the net amount reported in the balance sheet only if there is a current enforceable legal right to offset the recognised amounts and intent to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

d) Revenue Recognition

Revenue is recognised upon transfer of control of promised product or services to customer in an amount that reflects the consideration the company expects to receive in exchange for those product or service, regardless of when the payment is received.

Revenue is measured at the Transaction price, excluding amounts collected on behalf of the third parties. The amount disclosed as revenue is net of returns, trade discounts, volume rebates, Goods and Services Tax. The company recognizes revenue when the amount of revenue can be measured reliably and it is probable that the economic benefits associated with the transaction will flow to the entity.

The specific recognition criteria for the various types of the company's activities are described below

(i) Sales of goods

Revenue from sale of goods is recognised at the point in time when control of the goods are transferred to the customers, the customer has full discretion over the channel and price to sell the products, there is no unfulfilled obligation that could affect the customer's acceptance of the products and the company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods sold. The said conditions are generally fulfilled upon delivery of goods to the customers.

Delivery occurs when the goods have been shipped to the specific location, the risks and rewards of obsolescence and loss have been transferred to the customer, and either the customer has accepted the goods in accordance with the sale contract, the acceptance provisions have lapsed, or the company has objective evidence that all criteria for acceptance have been satisfied.

(ii) Services

Revenue from sale of services is recognised on the basis of the stage of completion. When the contract outcome cannot be measured reliably, revenue is recognised only to the extent that the expenses incurred are eligible to be recovered.

(iii) Export Incentives

Revenue in respect of the export incentives is recognized on accrual basis in the period in which the related exports have been made.

(iv) Power Generation

Sale of power is recognised on the basis of meter reading confirmed by buyers in accordance with the respective agreement.

Renewable Energy Certificate are accounted for on certification of energy sale quantity by the buyer and is valued at minimum sale price fixed by Central Electricity Regulatory Authority after adjusting expected outgo.

(v) Interest

Income from interest is recognized using the effective interest rate (EIR). EIR is the rate that exactly discounts the estimated future cash payments or receipts over the expected life of the financial instrument or a shorter period, where appropriate, to the gross carrying amount of the financial asset. When calculating the effective interest rate, the Company estimates the expected cash flows by considering all the contractual terms of the financial instrument but does not consider the expected credit losses.

(vi) Dividend

Dividend income is recognized when the right to receive the payment is established.

(vii) Insurance and other claims are recognized when no significant uncertainty exists with regard to the amount to be realized and the ultimate collection thereof.

e) Taxes**Income Taxes**

Income tax expense comprises current tax and deferred tax. Income tax expense is recognized in net profit in the statement of profit and loss except to the extent that it relates to items recognized directly in equity or other comprehensive income, in which case it is also recognized in equity or other comprehensive income respectively.

(i) Current Taxes:

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date in the countries where the Company

operates and generates taxable income.

Current income tax relating to items recognised outside profit or loss is recognised outside profit or loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

(ii) Deferred Taxes:

Deferred income tax assets and liabilities are recognized for all temporary differences arising between the tax base of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date except when the deferred income tax arises from the initial recognition of an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profit or loss at the time of the transaction. Deferred tax assets and liabilities are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

Deferred income tax assets and liabilities are measured using tax rates and tax laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect of changes in tax rates on deferred income tax assets and liabilities is recognized as income or expense in the period that includes the enactment or the substantive enactment date. A deferred income tax asset is recognized to the extent that it is probable that future taxable profit will be available against which the deductible temporary differences and tax losses can be utilized.

The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts and where it intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

Minimum Alternate Tax credit is recognised as a tax asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

f) Property, Plant and Equipment

Property, Plant and Equipment represent a significant proportion of the asset base of the company. The charge in respect of periodic depreciation is derived after determining an estimate of an asset's expected useful life and the expected residual value at the end of its life. Management reviews the residual values, useful lives and method of depreciation of Property, Plant and Equipment at each reporting period end and any revision to these is recognized prospectively in current and future periods. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology.

g) Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment loss.

h) Inventories

Inventories are valued at cost or net realizable value, whichever is lower except waste which is valued at net realisable value. The cost in respect of the various items of inventory is computed as under:

Raw Materials - At weighted average cost plus direct expenses. The cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. However, materials and other items held for use in the production of inventories are not written down below cost if the finished product in which they will be incorporated are expected to be sold at or above cost. Stores and Spares - At weighted average cost plus direct expenses. The cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition.

Work-in-Progress - At raw material cost plus conversion costs depending upon the stage of completion and other related overhead costs.

Finished Goods - At raw material cost plus conversion costs, packing cost and other overheads incurred to bring the goods to their present location and condition.

Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

i) Provisions, Contingent Liabilities and Contingent Assets

A provision shall be recognised when:

- (a) an entity has a present obligation as a result of a past event;
- (b) it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- (c) a reliable estimate can be made of the amount of the obligation.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

A Contingent liability is not recognised but disclosed in the notes to the accounts, unless the probability of an outflow of resources is remote.

A contingent asset is generally neither recognised nor disclosed.

j) Employees Benefits

Short term Employee Benefits:

Liabilities for wages, salaries and other employee benefits that are expected to be settled within twelve months of rendering the service by the employees are classified as short-term employee benefits. Such short-term employee benefits are measured at the amounts expected to be paid when the liabilities are settled. Short Term Employee Benefits are recognized as an expense on an

undiscounted basis in the statement of profit and loss of the year in which the related service is rendered.

k) Cash and cash equivalents

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with a maturity period of twelve months or less from the balance sheet date, which are subject to an insignificant risk of changes in value and is freely available for the company. Bank overdrafts are shown under borrowings in the balance sheet.

Earmarked bank balances and/or short-term deposits which are lien marked against borrowings are shown under the head "Bank balances other than Cash and Cash Equivalent".

l) Borrowing Costs

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of the asset. Other borrowing costs are recognized as an expense in the period in which they are incurred. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

m) Impairment of assets

(i) Financial assets

The company recognizes loss allowances using the expected credit loss (ECL) model for the financial assets which are not fair valued through profit or loss. Loss allowance for trade receivables with no significant financing component is measured at an amount equal to lifetime ECL. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month ECL, unless there has been a significant increase in credit risk from initial recognition in which case those are measured at lifetime ECL. The amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date to the amount that is required to be recognised is recognized as an impairment gain or loss in statement of profit or loss.

(ii) Non-financial assets

Property, plant and equipment and Intangible Assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. For the purpose of impairment testing, the recoverable amount (i.e. the higher of the fair value less cost to sell and the value-in use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the Cash Generating Unit to which the asset belongs. If such assets are considered to be impaired, the impairment to be recognized in the statement of profit and loss is measured by the amount by which the carrying value of the assets exceeds the estimated recoverable amount of the asset. An impairment loss is reversed in the statement of profit and loss if there has been a change in the estimates used to determine the recoverable amount. The carrying amount of the asset is increased to its revised recoverable amount, provided that this amount does not exceed the carrying amount that would have been determined (net of any accumulated amortization or depreciation) had no impairment loss been recognized for the asset in prior years.

**n) Earnings per Share**

The Basic earnings per share (EPS) is calculated by dividing the net profit or loss for the year attributable to the equity shareholders by the weighted average number of equity shares outstanding during the year.

Diluted earnings per equity share is calculated by dividing the net profit attributable to the equity holders of the company by the weighted average number of equity shares considered for deriving basic earnings per equity share and also the weighted average number of equity shares that could have been issued upon conversion of all dilutive potential equity shares. The dilutive potential equity shares are adjusted for the proceeds receivable had the equity shares been actually issued at fair value (i.e., the average market value of the outstanding equity shares). Dilutive potential equity shares are deemed converted as of the beginning of the period, unless issued at a later date. Dilutive potential equity shares are determined independently for each period presented.

o) Dividends

Final dividends on shares are recorded as a liability on the date of approval by the shareholders and interim dividends are recorded as a liability on the date of declaration by the company's Board of Directors.

p) Exceptional items

Ind AS 7 requires an entity to exclude non-cash transaction relating to investing and financing activities from the statement of cash flow. However, such transactions should be disclosed elsewhere in the financial statements. The investing and financing activities in cash flow statement do not have a direct impact on current cash flows although they do affect the capital and asset structure of an entity. The company has disclosed these transactions, to the extent material in relevant notes.

Cash and cash equivalents consist of cash on hand and balances with banks which are unrestricted for withdrawal and usage.

q) Trade Receivables

As per Ind As 109, the company is required to apply expected credit losses model for recognizing the provision for doubtful debts. The expected credit losses are determined based on past trends and assumptions.

r) Contingencies

A contingent liability is:

A possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company; or a present obligation that arises from past events but is not recognised because:

- (i) It is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or
- (ii) The amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is a possible asset that arises from past events and whose existence will be

confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company.

Contingent liabilities and assets are not recognised on the balance sheet of the Company, except for contingent liabilities assumed in a business combination that are present obligations arising from past events and for which the fair values can be reliably determined.

Contingent liabilities recognised in a business combination.

A contingent liability recognised in a business combination is initially measured at its fair value. Subsequently, it is measured at the higher of the amount that would be recognised in accordance with the requirements for provisions above or the amount initially recognised less, when appropriate, cumulative amortisation recognised in accordance with the requirements for revenue recognition

s) Cash flow statement

The cash flow statement is prepared in accordance with the Indian Accounting Standard (Ind AS) - 7 "Statement of Cash flows" using the indirect method for operating activities.

t) Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Company as a lessee

The Company's lease asset classes primarily consist of leases for buildings. The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets.

Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the lease term over the shorter of the lease term and the estimated useful lives of the assets.

- Buildings - Over the shorter of the lease term and the estimated useful lives of the assets
- Machinery - Over the shorter of the lease term and the estimated useful lives of the assets

Lease Liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using the incremental borrowing rates. Lease liabilities are remeasured with a corresponding adjustment to the related right of use asset if

the Company changes its assessment if whether it will exercise an extension or a termination option. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments. Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows. Lease payments are allocated between principal and finance cost. The finance cost is charged to statement of profit and loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low value assets are recognised as an operating expense on a straight-line basis over the lease term.

32. Leases

Right of Use (ROU) are measured at cost comprising the amount of the initial measurement of lease liability, any lease payments made at or before the commencement date and any initial direct costs less any lease incentives received. Lease liabilities were recognised based on the present value of the remaining lease payments.

In statement of profit and loss for the current period, the nature of expenses in respect of operating leases has changed from lease rent in previous periods to depreciation cost for the right-to-use asset and finance cost for interest accrued on lease liability.

In the context of initial application, the Company has exercised the option not to apply the new recognition requirements to short-term leases and to leases of low-value asset.

The effect of adoption of Ind AS 116 is as follows:

Management estimations and assumptions

a) The management assessed that cash and cash equivalents, trade receivables, trade payables, bank overdrafts and other current liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

b) The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

(i) The fair values of the unquoted equity shares have been determined based on certifications from valuers who have used Net Asset Value approach for determining the fair values.

(ii) The fair values of the derivative financial instruments have been determined based on the exchange rates prevailing as at year end.

33.2 FAIR VALUE MEASUREMENT

(i) Fair Value hierarchy

Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities

Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

The company's policy is to recognize transfers into and the transfers out of fair value hierarchy levels as at the end of the reporting period. There are no transfers between level 1 and level 2 during the end of the reported periods.

(ii) The following table presents fair value hierarchy of assets and liabilities measured at fair value: As at 31st March 2026

33.3 FINANCIAL RISK MANAGEMENT

The principal financial assets of the Company include loans, trade and other receivables, and cash and bank balances that derive directly from its operations. The principal financial liabilities of the company, include loans and borrowings, trade and other payables and the main purpose of these financial liabilities is to finance the day to day operations of the company.

The Company is exposed to market risk, credit risk and liquidity risk. The Company's senior management oversees the management of these risks and that advises on financial risks and the appropriate financial risk governance framework for the Company.

This note explains the risks which the company is exposed to and policies and framework adopted by the company to manage these risks:

(i) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprise three types of risk: foreign currency risk, interest rate risk, investment risk.

(ii) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates.

The Company's exposure to the risk of changes in market interest rates relates primarily to the Company's debt obligations with floating interest rates, which are included in interest bearing loans and borrowings in these financial statements. The company's fixed rate borrowings are carried at amortised cost. They are therefore not subject to interest rate risk, since neither the carrying amount nor the future cash flows will fluctuate because of a change in market interest rates.

(iii) Credit Risk

Credit risk refers to the risk of default on its obligation by the counterparty resulting in a financial loss. The maximum exposure to the credit risk at the reporting date is primarily from trade receivables which are typically unsecured. Credit risk on cash and bank balances is limited as the company generally invests in deposits with banks and financial institutions with high credit ratings assigned by credit rating agencies. The Company's credit risk in case of all other financial instruments is negligible.

The company assesses the credit risk based on external credit ratings assigned by credit rating agencies. The company also assesses the creditworthiness of the customers internally to whom goods are sold on credit terms in the normal course of business. The credit limit of each customer is defined in accordance with this assessment. Outstanding customer receivables are regularly monitored and any shipments to overseas customers are generally covered by letters of credit.

The impairment analysis is performed on client to client basis for the debtors that are past due at the end of each reporting date. The company has not considered an allowance for doubtful debts in case of trade receivables that are past due but there has not been a significant change in the credit quality and the amounts are still considered recoverable.

Write off policy : The financials assets are written off incase there is no reasonable expectation of recovering from the financial asset.
